

## Appendices accompanying report [Toxics Across America](#)

### Important notes:

*The Toxic Substances Control Act (TSCA) allows a company to claim most information it submits to EPA as confidential business information (CBI), which EPA by law cannot publicly disclose. Such claims can be made for the identity of a chemical a company produces or imports, the company's own identity, whether the company produces or imports the chemical, the location of sites at which a company produces or imports a chemical, chemical production or import volume, and chemical processing and use information.*

*Hence the public version of EPA's Chemical Data Reporting (CDR) database does not include any information claimed CBI, although it does include an indicator wherever specific information was claimed CBI. For this reason, these appendices may not contain all "Mind the Store" (MTS) list chemicals that were reported to EPA or all companies that reported producing or importing MTS list chemicals in the U.S. Nor do they contain any other information about these chemicals claimed as CBI by a reporting company. Wherever possible, we have sought to include information on the extent to which specific items or categories of information have been claimed as CBI.*

*In addition, while we used the most recent public data on U.S. chemical production and import, they were collected by EPA in 2012 for activity during the calendar years 2011 and 2010. Given the dynamic nature of the chemical market, some of the data we report here may have changed.*

This document contains the following data appendices referred to in *Toxics Across America*:

**Appendix 1. Status of MTS List Chemicals in the U.S. in 2011: Production and Use**

**Appendix 2. Companies that Reported Producing or Importing MTS List Chemicals in 2011**

- A. Listed by company
- B. Listed by CAS number

**Appendix 3. Number of MTS List Chemicals Produced or Imported and Number of Sites Reporting MTS List Chemicals in 2011, by State**

**Appendix 4. MTS List Chemicals Produced or Imported in 2011, by State**

**Appendix 5. MTS List Chemicals with Consumer or Commercial Uses Reported in 2011**

## Appendix 1. Status of MTS List Chemicals in the U.S. in 2011: Production and Use

(see pages 1 - 10 to 1 - 12 for table notes)

Chemical Name(s)	CAS #	Basis for inclusion on MTS list	Primary Category	On TSCA inventory?	In U.S. commerce at >25k lbs/year/site?	National Production Volume (lb)	# of site records	# of public sites	# of CBI sites	# of reporting companies public	# of reporting companies CBI	Reported to be present in products intended for children	Reported product categories
<b>Hazardous 100 List</b>													
2-Aminotoluene (o-Toluidine)	95-53-4	Cancer	Dyes & Pigments	Y	Y	60,105,332	4	4	0	4	0	Not reported	None reported
2-Naphthylamine	91-59-8	Cancer	Dyes & Pigments	N	N	-	-	-	-	-	-	-	-
3,3'-Dimethylbenzidine (o-Tolidine)	119-93-7	Cancer	Dyes & Pigments	Y	N	-	-	-	-	-	-	-	-
4,4'-Bis(dimethylamino)benzophenone (Michler's ketone)	90-94-8	Cancer	Dyes & Pigments	Y	N	-	-	-	-	-	-	-	-
4,4'-Methylenedi-o-toluidine	838-88-0	Cancer	Dyes & Pigments	Y	N	-	-	-	-	-	-	-	-
4-Aminoazobenzene (Aniline yellow)	60-09-3	Cancer	Dyes & Pigments	Y	N	-	-	-	-	-	-	-	-
6-Methoxy-m-toluidine (p-Cresidine)	120-71-8	Cancer	Dyes & Pigments	Y	Y	CBI	2	1	1	1	1	Not reported	None reported
Benzenamine (Aniline)	62-53-3	Cancer	Dyes & Pigments	Y	Y	1,955,882,344	9	9	0	6	0	Not reported	None reported
Benzidine and its salts	92-87-5	Cancer	Dyes & Pigments	Y	N	-	-	-	-	-	-	-	-

See next three pages for table notes

**How the chemicals are grouped in Appendix 1:** Entries are first grouped by sublist within the MTS List of chemicals. (The first sublist includes chemicals of high concern identified by at least two government authorities in the U.S. and EU. The second sublist is a non-exhaustive set of chemicals identified on the basis that they pose concerns similar to the chemicals on the first list, but which do not appear on at least two of the authoritative lists.) The appendix is subdivided into the two sublists. Second, the order within each sublist mirrors that of the MTS List. Where we have identified additional chemicals or CAS numbers to represent MTS List chemicals or categories (see “How we did our analysis” in the *Toxics Across America* report), these are grouped with the MTS List chemical or category with which they are associated.

**Notes on chemicals and chemical categories:**

- On the MTS List of chemicals, several chemical categories are listed without specific Chemical Abstract Service numbers (CAS #'s), and instead the list indicates there are “various” CAS #'s. In “How we did our analysis” in the *Toxics Across America* report 1, all CAS numbers related to these categories are listed.
- Several substances that are identified by only one CAS # on the MTS list of chemicals are representative of categories of closely related substances; “How we did our analysis” includes the additional CAS #s for these closely related substances.
- Several entries on the MTS list of chemicals represent commercial mixtures or other substances for which multiple CAS #s may be appropriate in identifying the mixture or substance. For additional information on the specific chemicals and categories of chemicals included and their corresponding CAS #s, see “How we did our analysis” in the *Toxics Across America* report.

**Footnotes** (found in Chemical Name column)

1. C.I. Direct Blue 218 (CAS # 28407-37-6) is part of the MTS List chemical category “Benzidine and benzidine-congener based dyes.” No other dyes in this category appear on the CDR and hence only this single entry is included in this appendix.
2. Hexabromocyclododecane (HBCD) (CAS # 25637-99-4) is an entry on the MTS list of chemicals that we expanded to include an additional CAS # used to represent this substance. EPA identifies this CAS number as representing a mixture of all 16 possible isomers of HBCD; see [http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/RIN2070-AZ10\\_HBCD%20action%20plan\\_Final\\_2010-08-09.pdf](http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/RIN2070-AZ10_HBCD%20action%20plan_Final_2010-08-09.pdf).
3. 1,2,5,6,9,10-Hexabromocyclododecane (CAS # 3194-55-6) is an additional CAS number for HBCD that EPA identifies as representing a mixture of the three main HBCD diastereomers. Both HBCD CAS numbers are found on the TSCA inventory and on the 2012 CDR and are listed as distinct entries in this appendix.
4. c-DecaBDE (CAS # 1163-19-5) is part of the MTS List chemical category “Polybrominated diphenyl ethers (PBDEs)”. C-DecaBDE is a commercial PBDE mixture covered by the EPA PBDE action plan, comprised of the major component decaBDE, and a minor component nonaBDE; see [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/pbdes\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/pbdes_ap_2009_1230_final.pdf).
5. c-PentaBDE (CAS # 32534-81-9) is part of the MTS List chemical category “Polybrominated diphenyl ethers (PBDEs)”. C-pentaBDE is a commercial PBDE mixture covered by the EPA PBDE action plan, comprised of the major components tetraBDE and pentaBDE and a minor component hexaBDE; see [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/pbdes\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/pbdes_ap_2009_1230_final.pdf).
6. c-OctaBDE (CAS # 32536-52-0) is part of the MTS List chemical category “Polybrominated diphenyl ethers (PBDEs)”. C-OctaBDE is a commercial PBDE mixture covered by the EPA PBDE action plan, comprised of the major components heptaBDE and octaBDE and minor components hexaBDE, nonaBDE and decaBDE; see [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/pbdes\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/pbdes_ap_2009_1230_final.pdf).
7. This lengthy name is verbatim the name of this category on the EU Candidate List of Substances of Very High Concern. Although the candidate list includes an additional CAS # (13530-68-2) for this category, it is not found on the CDR and therefore is not included in this appendix.
8. Di-(C10-rich branched C9-C11-alkyl) phthalate (CAS # 68515-49-1) is part of a mixture that makes up the commercial product Diisodecyl phthalate (DIDP) (CAS # 26761-40-0) and is covered by the U.S. EPA phthalates action plan see [http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/phthalates\\_actionplan\\_revised\\_2012-03-14.pdf](http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/phthalates_actionplan_revised_2012-03-14.pdf).
9. Di-(C9-rich branched C8-C10-alkyl) phthalate (CAS # 68515-48-0) is part of a mixture that makes up the commercial product Diisononyl phthalate (DINP) (CAS # 28553-12-0) and is covered by the U.S. EPA phthalates action plan; see [http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/phthalates\\_actionplan\\_revised\\_2012-03-14.pdf](http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/phthalates_actionplan_revised_2012-03-14.pdf).
10. Toluene diisocyanate (TDI) (CAS # 26471-62-5) is a commercial mixture comprised of the following substances: 2,6-Toluene diisocyanate (CAS # 91-08-7) and 2,4-Toluene diisocyanate (CAS # 584-84-9). Data for all three CAS numbers have been combined under the CAS # 26471-62-5. See the U.S. EPA TDI Action Plan for more information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/tdi.pdf>.
11. These three TDI-related compounds identified in the U.S. EPA TDI Action Plan are included in this appendix.
12. The information reported in this appendix for this substance excludes one record from the 2012 CDR because no production volume was reported for 2011.
13. These substances are several additional specific nonylphenol ethoxylates (NPEs) listed by the State of Maine as “Designated Priority Chemicals;” see [http://www.maine.gov/dep/safecem/rules/nonylphenol%20\\_support\\_document\\_final.pdf](http://www.maine.gov/dep/safecem/rules/nonylphenol%20_support_document_final.pdf).

14. Nonylphenol (NP) is covered by the U.S. EPA Action Plan: [http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/RIN2070-ZA09\\_NP-NPEs%20Action%20Plan\\_Final\\_2010-08-09.pdf](http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/RIN2070-ZA09_NP-NPEs%20Action%20Plan_Final_2010-08-09.pdf). The plan lists these two additional substances as part of the NPE category, which are included in this appendix.
15. The information reported in this appendix for this substance excludes one record from the 2012 CDR because no production volume was reported for 2011.
16. Paraffin waxes and hydrocarbon waxes, chloro (CAS # 63449-39-8) is a short-chain chlorinated paraffin (SCCP). Data for the substance paraffins, chloro (CAS # 61788-76-9), which may also fall under the EPA's definition of SCCPs, has been combined under the CAS# 63449-39-8. It should be noted that not all records on the CDR for this CAS # necessarily fall within EPA's definition of SCCPs. For further explanation of the SCCP category, see "How we did our analysis," footnote 39 of the Toxics Across America report and the EPA action plan, Section III: Scope of Review: [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps_ap_2009_1230_final.pdf).
17. These substances are additional substances in the "other organotins" category identified by the European NGO, ChemSec, on its "Substitute it Now" (SIN) List, available here: <http://www.chemsec.org/what-we-do/sin-list>.
18. Methylenediphenyl diisocyanate (MDI) (CAS # 26447-40-5) is a commercial mixture comprised of the following substances: 4,4'-Methylenediphenyl diisocyanate (CAS # 101-68-8), 2,4'-Methylenediphenyl diisocyanate (CAS # 5873-54-1), 2,2'-Methylenediphenyl diisocyanate (CAS # 2536-05-2). Data for all four CAS numbers have been combined under CAS # 26447-40-5. See the U.S. EPA MDI Action Plan for additional information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/mdi.pdf>.
19. These substances are the four MDI-related compounds identified in the U.S. EPA MDI action plan.

#### Column notes:

An entry marked with "-" in columns 7-14 indicates that the chemical was not reported on the public version of the 2012 CDR database.

**Chemical name:** Commonly used synonyms or acronyms are provided in parentheses.

**CAS #:** Chemical Abstract Service Registry Number, which is a unique identifier.

**Basis for inclusion on MTS list:** An "\*" next to a hazard characteristic indicates that this CAS number is an additional CAS number included in the MTS list of chemicals. For these substances, the hazard characteristic listed is that of the related chemical that was the basis for their inclusion on the MTS list. PBT = persistent, bioaccumulative and toxic. vPvB = very persistent and very bioaccumulative.

**Primary Category:** The primary category is that used on the MTS List for grouping chemicals. For the additional CAS numbers we have added (denoted by the presence of an "\*" in the "Basis for inclusion on MTS list" column), the primary category is that of the related chemical that was the basis for their inclusion on the MTS list.

**On TSCA inventory?:** Based on the most recent public version dated August 2013; excludes chemicals with identities claimed to be confidential business information.

**In U.S. commerce at >25k lbs/year/site?:** Indicates if the volume reported by any manufacturer and/or importer of the chemical exceeded the 2011 reporting threshold of 25,000 pounds per site per year; based on the most recent publicly available data collected in 2012 for calendar year 2011.

**2011 National Production Volume (NPV):** The total reported production volume of a chemical for all sites, aggregated across all manufacturers and importers. Some NPV values are reported by EPA in ranges to protect confidential business information. In addition, some NPV values are withheld by EPA to protect confidential business information. In these cases, if any manufacture or import volumes are available for a given chemical at specific sites, this appendix shows that EPA reported the volume as "withheld" but we have aggregated the available production volume to provide a minimum value and indicated it in parentheses preceded by a ">". Finally, if no non-CBI production volume is available for a given chemical, this appendix reports it as "CBI."

**# of site records:** Indicates the total number of unique chemical-site records for a given chemical. This count includes sites the identities of which have been claimed as confidential business information. Because of the nature of the records, each unique chemical-site combination can be assumed to be a unique site reporting that chemical.

**# of identified sites:** Indicates the total number of chemical-site records for a given chemical in which the site location is publicly available.

**# of sites CBI:** Indicates the total number of chemical-site records for a given chemical in which the site location is claimed confidential business information.

**# of reporting companies:** Indicates the total number of records for a given chemical in which the reporting company's identity is publicly available.

**# of reporting companies CBI:** Indicates the total number of records for a given chemical in which the reporting company's identity is claimed confidential business information. Unlike information on site location, we have had to assume each CBI entry for company identity for a given chemical at multiple sites represents a different company, even though it is possible the same company claimed its identity CBI for multiple sites; therefore, this count may somewhat overestimate the number of reporting companies.

Reported to be present in products intended for children: Indicates if a given chemical was reported as being present in a product intended for use by children, which EPA defines to mean that the chemical is used in or on a product that is specifically intended for use by children age 14 or younger. The threshold triggering the requirement to report this use information in 2011 was 100,000 pounds of a chemical per site for that year; hence, many chemicals present on the CDR do not have any use information reported, and those MTS List chemicals lacking this information are indicated as “not reported.” Some chemicals may have multiple responses reported by different companies, which have been compiled in this appendix. Manufacturers and importers were also able to claim this information either CBI or “not known or reasonably ascertainable” (NKRA), which we have so indicated. For an explanation of the use of NKRA on the 2012 CDR, see the report, under “Introduction, Limitations to Our Analysis.”

Reported product categories: Indicates any reported commercial and consumer product categories for a given chemical. The threshold triggering the requirement to report this use information in 2011 was 100,000 pounds of a chemical per site for that year; hence, many chemicals present on the CDR do not have any product category information reported, and those MTS List chemicals lacking this information are indicated as “none reported.” Companies can also report product categories as either CBI or NKRA. To see the responses for use in products intended for children for these product categories, see Appendix 5.

## Appendix 2. Companies that Reported Producing or Importing MTS List Chemicals in 2011

### Part A. Listed by Company Part B. Listed by CAS Number

#### A. Listed by Company

(see page 2A - 21 for notes)

Company	Chemical name(s)	CAS #	Mfr	Mfr Volume (lbs.)	Imp	Imp Volume (lbs.)	CBI
3M CO	Carbon disulfide	75-15-0	Yes	CBI	No		
	Dimethyl sulphate	77-78-1	No		Yes	CBI	
	Diethyl phthalate (DEP)	84-66-2	No		Yes	CBI	
	Ethylbenzene	100-41-4	No		Yes	CBI	
	Toluene	108-88-3	No		Yes	CBI	
	Decamethylcyclpentasiloxane (D5)	541-02-6	No		Yes	CBI	
	Paraffin waxes and hydrocarbon waxes, chloro (SCCP) <sup>1</sup>	63449-39-8	No		Yes	CBI	
	Di-(C10-rich branched C9-C11-alkyl) phthalate (Part of DIDP)	68515-49-1	No		Yes	CBI	
3V INC	Benzenamine (Aniline)	62-53-3	No		Yes	CBI	
5N PLUS INC	Lead	7439-92-1	Yes	36,671	No		
AAKASH CHEMICALS	Methylenediphenyl diisocyanate (MDI) <sup>2</sup>	26447-40-5	No		Yes	26,400	
AC&S INC	2-Aminotoluene (o-Toluidine)	95-53-4	No		Yes	CBI

**Entry notes** (found in Chemical Name column)

1. Paraffin waxes and hydrocarbon waxes, chloro (CAS # 63449-39-8) is a short-chain chlorinated paraffin (SCCP). Data for the substance paraffins, chloro (CAS # 61788-76-9) which may also fall under the EPA's definition of SCCPs, has been combined under the CAS# 63449-39-8. It should be noted that not all records on the CDR for this CAS # necessarily fall within EPA's definition of SCCPs. For further explanation of the SCCP category, see "How we did our analysis," footnote 39 of the Toxics Across America report and the EPA action plan, Section III: Scope of Review: [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps_ap_2009_1230_final.pdf).
2. Methylenediphenyl diisocyanate (MDI) (CAS # 26447-40-5) is a commercial mixture comprised of the following substances: 4,4'-Methylenediphenyl diisocyanate (CAS # 101-68-8), 2,4'-Methylenediphenyl diisocyanate (CAS # 5873-54-1), 2,2'-Methylenediphenyl diisocyanate (CAS # 2536-05-2). Data for all four CAS numbers have been combined under CAS # 26447-40-5. See the U.S. EPA MDI Action Plan for additional information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/mdi.pdf>.
3. Toluene diisocyanate (TDI) (CAS # 26471-62-5) is a commercial mixture comprised of the following substances: 2,6-Toluene diisocyanate (CAS # 91-08-7) and 2,4-Toluene diisocyanate (CAS # 584-84-9). Data for all three CAS numbers have been combined under the CAS # 26471-62-5. See the U.S. EPA TDI Action Plan for more information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/tdi.pdf>.

**Column notes:**

Company name: As reported in the EPA 2012 Chemical Data Reporting Rule.

CAS #: Chemical Abstract Service Registry Number, which is a unique identifier.

Chemical Name(s): Commonly used synonyms or acronyms are provided in parentheses.

Mfr/Imp/CBI: Mfr = chemical is manufactured; Imp = chemical is imported; CBI = the information as to whether the chemical is manufactured or imported is claimed as confidential business information. A given chemical may be manufactured, imported and/or claimed CBI by the same company at the same or different sites.

Company's Mfr Volume/Imp volume (lbs): The volume of the chemical manufactured or imported in the U.S. by the company in 2011, aggregated across all sites where the company manufactured or imported the identified chemical. Manufactured and imported volumes may also be claimed CBI.

Special Cases:

- Where "Withheld" appears in a cell by itself, manufactured or imported volume(s) were reported by that company but were withheld by EPA to protect CBI.
- Where "Withheld" appears along with a value in parentheses, EPA withheld the manufacture or import volume for at least one of the company's sites to protect CBI, but publicly reported the volume(s) for the company's other site(s). That reported volume, or the sum of volumes reported across those sites, is the value that appears in parentheses.
- Where "CBI" appears along with a value in parentheses, the company reported manufactured or imported volume as CBI for at least one site, but publicly reported the volume(s) for its other site(s). That reported volume, or the sum of volumes reported across those sites, is the value that appears in parentheses.
- Where "Withheld" and "CBI" appear together, the company reported the manufactured or imported volume CBI for at least one site but publicly reported the volume(s) for its other site(s). However, EPA withheld the publicly reported volume(s) to protect CBI.

**Entry notes** (found in Chemical Name column)

1. Methylenediphenyl diisocyanate (MDI) (CAS # 26447-40-5) is a commercial mixture comprised of the following substances: 4,4'-Methylenediphenyl diisocyanate (CAS # 101-68-8), 2,4'-Methylenediphenyl diisocyanate (CAS # 5873-54-1), 2,2'-Methylenediphenyl diisocyanate (CAS # 2536-05-2). Data for all four CAS numbers have been combined under CAS # 26447-40-5. See the U.S. EPA MDI Action Plan for additional information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/mdi.pdf>.
2. Toluene diisocyanate (TDI) (CAS # 26471-62-5) is a commercial mixture comprised of the following substances: 2,6-Toluene diisocyanate (CAS # 91-08-7) and 2,4-Toluene diisocyanate (CAS # 584-84-9). Data for all three CAS numbers have been combined under the CAS # 26471-62-5. See the U.S. EPA TDI Action Plan for more information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/tdi.pdf>.
3. Paraffin waxes and hydrocarbon waxes, chloro (CAS # 63449-39-8) is a short-chain chlorinated paraffin (SCCP). Data for the substance paraffins, chloro (CAS # 61788-76-9) which may also fall under the EPA's definition of SCCPs, has been combined under the CAS# 63449-39-8. It should be noted that not all records on the CDR for this CAS # necessarily fall within EPA's definition of SCCPs. For further explanation of the SCCP category, see "How we did our analysis," footnote 39 of the Toxics Across America report and the EPA action plan, Section III: Scope of Review: [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps_ap_2009_1230_final.pdf).

**Column notes:**

Company name: As reported in the EPA 2012 Chemical Data Reporting Rule.

CAS #: Chemical Abstract Service Registry Number, which is a unique identifier.

Chemical Name(s): Commonly used synonyms or acronyms are provided in parentheses.

Mfr/Imp/CBI: Mfr = chemical is manufactured; Imp = chemical is imported; CBI = the information as to whether the chemical is manufactured or imported is claimed as confidential business information. A given chemical may be manufactured, imported and/or claimed CBI by the same company at the same or different sites.

Company's Mfr Volume/Imp volume (lbs): The volume of the chemical manufactured or imported in the U.S. by the company in 2011, aggregated across all sites where the company manufactured or imported the identified chemical. Manufactured and imported volumes may also be claimed CBI.

Special Cases:

- Where "Withheld" appears in a cell by itself, manufactured or imported volume(s) were reported by that company but were withheld by EPA to protect CBI.
- Where "Withheld" appears along with a value in parentheses, EPA withheld the manufacture or import volume for at least one of the company's sites to protect CBI, but publicly reported the volume(s) for the company's other site(s). That reported volume, or the sum of volumes reported across those sites, is the value that appears in parentheses.
- Where "CBI" appears along with a value in parentheses, the company reported manufactured or imported volume as CBI for at least one site, but publicly reported the volume(s) for its other site(s). That reported volume, or the sum of volumes reported across those sites, is the value that appears in parentheses.
- Where "Withheld" and "CBI" appear together, the company reported the manufactured or imported volume CBI for at least one site but publicly reported the volume(s) for its other site(s). However, EPA withheld the publicly reported volume(s) to protect CBI.

\*Companies in 45 states and the Virgin Islands (VI) reported producing or importing MTS List chemicals.

\*\* Numbers do not necessarily add to total because a given chemical may be produced, imported and/or claimed CBI by the same company.

## Appendix 4. MTS List Chemicals Produced or Imported in 2011, by State

**Entry notes** (found in chemical name column)

1. Toluene diisocyanate (TDI) (CAS # 26471-62-5) is a commercial mixture comprised of the following substances: 2,6-Toluene diisocyanate (CAS # 91-08-7) and 2,4-Toluene diisocyanate (CAS # 584-84-9). Data for all three CAS numbers have been combined under the CAS # 26471-62-5. See the U.S. EPA TDI Action Plan for more information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/tdi.pdf>.
2. Paraffin waxes and hydrocarbon waxes, chloro (CAS # 63449-39-8) is a short-chain chlorinated paraffin (SCCP). Data for the substance paraffins, chloro (CAS # 61788-76-9) which may also fall under the EPA's definition of SCCPs, has been combined under the CAS# 63449-39-8. It should be noted that not all records on the CDR for this CAS # necessarily fall within EPA's definition of SCCPs. For further explanation of the SCCP category, see "How we did our analysis," footnote 39 of the *Toxics Across America* report and the EPA action plan, Section III: Scope of Review: [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps_ap_2009_1230_final.pdf).
3. Methylenediphenyl diisocyanate (MDI) (CAS # 26447-40-5) is a commercial mixture comprised of the following substances: 4,4'-Methylenediphenyl diisocyanate (CAS # 101-68-8), 2,4'-Methylenediphenyl diisocyanate (CAS # 5873-54-1), 2,2'-Methylenediphenyl diisocyanate (CAS # 2536-05-2). Data for all four CAS numbers have been combined under CAS # 26447-40-5. See the U.S. EPA MDI Action Plan for additional information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/mdi.pdf>.

**Column Notes**

State: VI= Virgin Islands.

Chemical Name(s): Commonly used synonyms or acronyms are provided in parentheses.

CAS #: Chemical Abstract Service Registry Number, which is a unique identifier.

Company name: As reported in the EPA 2012 Chemical Data Reporting Rule.

Mfr/Imp/CBI: Mfr = chemical is manufactured; Imp = chemical is imported; CBI = the information as to whether the chemical is manufactured or imported is claimed as confidential business information. A given chemical may be manufactured, imported and/or claimed CBI by the same company at the same or different sites.

## Appendix 5. MTS List Chemicals with Consumer or Commercial Uses Reported in 2011

(see page 5 - 15 for notes)

Chemical Name	CAS #	Product category	Company	Consumer and/or commercial use?	Used in products intended for children?	
Formaldehyde	50-00-0	Floor Coverings	ADVANCED POLYMER TECHNOLOGY	Commercial	Yes	
		Agricultural Products (non-pesticidal)	D B WESTERN INC	Commercial	No	
		Paints and Coatings	GEO SPECIALTY CHEMICALS INC	Commercial	No	
		Other (specify)	GEO SPECIALTY CHEMICALS INC	Commercial	No	
		Adhesives and Sealants	GEO SPECIALTY CHEMICALS INC	Commercial	No	
		Personal Care Products	GEO SPECIALTY CHEMICALS INC	Both	No	
		Building/Construction Materials - Wood and Engineered	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No	
		Wood Products				
		Paints and Coatings	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No	
		Adhesives and Sealants	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No	
		Electrical and Electronic Products	OM GROUP INC	Commercial	NKRA	
		Paper Products	PANOLAM INDUSTRIES INTERNATIONAL INC	Commercial	No	
		Building/Construction Materials - Wood and Engineered	PANOLAM INDUSTRIES INTERNATIONAL INC	Commercial	No	
		Wood Products				
		Water Treatment Products	PERSTORP HOLDING US INC	Consumer	No	
Building/Construction Materials not covered elsewhere	PRAXAIR INC	Commercial	No			
Diethyl sulphate	64-67-5	Other (specify)	ACETO CORP	NKRA	NKRA	
		Personal Care Products	ACETO CORP	NKRA	NKRA	
		Non-TSCA Use	ACETO CORP	NKRA	NKRA	
Benzene	71-43-2	Fuels and Related Products	ALON USA LP	Commercial	No	
		Lubricants and Greases	ALON USA LP	Commercial	No	
		Automotive Care Products	ALON USA LP	Commercial	No	
		Fuels and Related Products	BASIN ELECTRIC POWER COOPERATIVE	Commercial	No	
		Fuels and Related Products	BP PRODUCTS NORTH AMERICA INC	Commercial	No	
		Fuels and Related Products	CBI	NKRA	No	
		Fuels and Related Products	CBI	Both	No	
		NKRA	CHALMETTE REFINING LLC	NKRA	NKRA	
		Fuels and Related Products	CITGO PETROLEUM CORP	Commercial	No	
		Plastic and Rubber Products not covered elsewhere	CITGO PETROLEUM CORP	Commercial	No	
		Other (specify)	CONOCOPHILLIPS CO	Commercial	No	
		Fuels and Related Products	DELTECH CORP	Both	No	
		Fuels and Related Products	E I DU PONT DE NEMOURS & CO	Both	No	
		Plastic and Rubber Products not covered elsewhere	EMERALD PERFORMANCE MATERIALS LLC	Both	NKRA	
		Fuels and Related Products	GEORGIA GULF CORP	Commercial	No	
		Other (specify)	HOLLYFRONTIER CORP	Commercial	No	
		Fuels and Related Products	IRVING OIL TERMINALS INC	Both	No	
		NKRA	KOCH INDUSTRIES INC	NKRA	NKRA	
		Other (specify)	KOLMAR AMERICAS INC	Commercial	No	
		Fuels and Related Products	LUKOIL PAN AMERICAS LLC	Both	No	
		Plastic and Rubber Products not covered elsewhere	MARUBENI AMERICA CORP	Commercial	No	
		NKRA	MITSUI & CO U S A INC	Commercial	No	
		Fuels and Related Products	OCEAN INVESTMENTS CORP	Both	No	
		Plastic and Rubber Products not covered elsewhere	PBF ENERGY	Consumer	NKRA	
		NKRA	PBF ENERGY	Commercial	No	
		Adhesives and Sealants	PBF ENERGY	Both	NKRA	

Chemical Name	CAS #	Product category	Company	Consumer and/or commercial use?	Used in products intended for children?
Benzene	71-43-2	Cleaning and Furnishing Care Products	PBF ENERGY	Both	NKRA
		NKRA	PHILLIPS 66 COMPANY	NKRA	NKRA
		Paints and Coatings	TRANSAMMONIA INC	Commercial	NKRA
		Fuels and Related Products	UNITED REFINING CO	Commercial	No
		NKRA	VALERO SERVICES, INC	Both	No
		Fuels and Related Products	WRB REFINING LP	Commercial	No
Cobalt(II) diacetate	71-48-7	Agricultural Products (non-pesticidal)	OM GROUP INC	Commercial	No
		Lubricants and Greases	OM GROUP INC	Commercial	No
		Plastic and Rubber Products not covered elsewhere	OM GROUP INC	Commercial	No
		Ink, Toner, and Colorant Products	OM GROUP INC	Commercial	No
		Other (specify)	OM GROUP INC	Commercial	No
Vinyl chloride (VC or VCM)	75-01-4	Plastic and Rubber Products not covered elsewhere	FORMOSA PLASTICS CORP USA	Both	No
		Plastic and Rubber Products not covered elsewhere	FORMOSA PLASTICS CORP USA	Both	NKRA
Methylene chloride	75-09-2	Metal Products not covered elsewhere	CBI	Commercial	No
		Paints and Coatings	CBI	Both	No
		Automotive Care Products	CBI	Both	No
		Paints and Coatings	CBI	Consumer	No
		NKRA	GREENCHEM INDUSTRIES LLC	NKRA	No
		Adhesives and Sealants	GREENCHEM INDUSTRIES LLC	Both	NKRA
Carbon disulfide	75-15-0	Fuels and Related Products	CBI	Commercial	No
Propylene oxide (PPO)	75-56-9	Anti-Freeze and De-icing Products	DOW CHEMICAL CO	Both	No
		Laundry and Dishwashing Products	DOW CHEMICAL CO	Both	No
		Fuels and Related Products	LYONDELL CHEMICAL COMPANY	Both	No
Dibutyltin dilaurate	77-58-7	CBI	CBI	CBI	CBI
		Building/Construction Materials not covered elsewhere	OM GROUP INC	Commercial	No
		Electrical and Electronic Products	OM GROUP INC	Commercial	No
		Plastic and Rubber Products not covered elsewhere	OM GROUP INC	Commercial	No
		Floor Coverings	OM GROUP INC	Commercial	No
		Adhesives and Sealants	OM GROUP INC	Commercial	No
		Paints and Coatings	OM GROUP INC	Commercial	No
Tetraethyllead	78-00-2	CBI	ETHYL CORP	CBI	No
		Fuels and Related Products	INNOSPEC INC	Commercial	No
Trichloroethylene (TCE)	79-01-6	NKRA	CBI	NKRA	NKRA
		Adhesives and Sealants	DOW CHEMICAL CO	Both	No
		NKRA	TRINTERNATIONAL INC	NKRA	NKRA
Acrylamide	79-06-1	NKRA	KOWA AMERICAN CORP	Commercial	No
		Water Treatment Products	SNF HOLDING CO	Commercial	No
Tetrabromobisphenol A (TBBPA)	79-94-7	Electrical and Electronic Products	ALBEMARLE CORP	Commercial	No
		NKRA	ALBEMARLE CORP	NKRA	NKRA
		Electrical and Electronic Products	ALBEMARLE CORP	Consumer	No
		Electrical and Electronic Products	ICL	Both	No
		Plastic and Rubber Products not covered elsewhere	LG INTERNATIONAL AMERICA INC	Commercial	No
Bisphenol A (BPA)	80-05-7	Ink, Toner, and Colorant Products	BAYER GROUP	Commercial	No
		Paints and Coatings	BAYER GROUP	Commercial	No
		Food Packaging	BAYER GROUP	Commercial	No
		Toys, Playground, and Sporting Equipment	HAVERHILL CHEMICALS LLC	Commercial	No

Chemical Name	CAS #	Product category	Company	Consumer and/or commercial use?	Used in products intended for children?
Bisphenol A (BPA)	80-05-7	Paints and Coatings	HAVERTHILL CHEMICALS LLC	Commercial	No
		Electrical and Electronic Products	HAVERTHILL CHEMICALS LLC	Commercial	No
		CBI	IDEMITSU CHEMICALS USA CORP	CBI	CBI
		Adhesives and Sealants	ITOCHU INTERNATIONAL INC	Commercial	No
		Electrical and Electronic Products	LG INTERNATIONAL AMERICA INC	Commercial	No
		Adhesives and Sealants	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No
		Paints and Coatings	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No
Bisphenol S (BPS)	80-09-1	NKRA	TRINTERNATIONAL INC	NKRA	NKRA
		Paper Products	APPLETON PAPERS INC	Commercial	No
		Fabric, Textile, and Leather Products not covered elsewhere	CBI	Commercial	NKRA
		Fabric, Textile, and Leather Products not covered elsewhere	NICCA USA INC	Commercial	No
Diethyl phthalate (DEP)	84-66-2	Paper Products	RICOH CORP	Both	No
		Automotive Care Products	3M CO	Commercial	No
		Adhesives and Sealants	3M CO	Commercial	No
		Adhesives and Sealants	3M CO	Consumer	No
		Laundry and Dishwashing Products	CBI	Consumer	NKRA
		Cleaning and Furnishing Care Products	CBI	Consumer	NKRA
		Plastic and Rubber Products not covered elsewhere	EASTMAN CHEMICAL CO INC	Both	No
		Paints and Coatings	EASTMAN CHEMICAL CO INC	Commercial	No
		Ink, Toner, and Colorant Products	EASTMAN CHEMICAL CO INC	Commercial	No
		Adhesives and Sealants	EASTMAN CHEMICAL CO INC	Both	No
		Air Care Products	INTERNATIONAL FLAVORS & FRAGRANCES INC	Both	No
		Plastic and Rubber Products not covered elsewhere	INTERNATIONAL FLAVORS & FRAGRANCES INC	Both	NKRA
		Cleaning and Furnishing Care Products	INTERNATIONAL FLAVORS & FRAGRANCES INC	Both	No
		Laundry and Dishwashing Products	INTERNATIONAL FLAVORS & FRAGRANCES INC	Both	No
		Personal Care Products	INTERNATIONAL FLAVORS & FRAGRANCES INC	Both	NKRA
Diisobutyl phthalate (DIBP)	84-69-5	Non-TSCA Use	INTERNATIONAL FLAVORS & FRAGRANCES INC	Consumer	NKRA
		Plastic and Rubber Products not covered elsewhere	ROTUBA EXTRUDERS INC	Consumer	No
Dibutyl phthalate (DBP)	84-74-2	Other (specify)	LANXESS CORP	Commercial	No
		Plastic and Rubber Products not covered elsewhere	EASTMAN CHEMICAL CO INC	Commercial	No
		Explosive Materials	EASTMAN CHEMICAL CO INC	Commercial	No
		Ink, Toner, and Colorant Products	EASTMAN CHEMICAL CO INC	Commercial	No
		Floor Coverings	FERRO CORP	Both	No
		Adhesives and Sealants	FERRO CORP	Both	No
Benzyl butyl phthalate (BBP)	85-68-7	NKRA	GREENCHEM INDUSTRIES LLC	Commercial	NKRA
		Adhesives and Sealants	FERRO CORP	Both	No
		Floor Coverings	FERRO CORP	Both	No
1,2,3-Trichloropropane	96-18-4	Adhesives and Sealants	RPM INC	Commercial	No
		Adhesives and Sealants	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No
p-Hydroxybenzoic acid (pHBA)	99-96-7	Paints and Coatings	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No
		Electrical and Electronic Products	CBI	Commercial	No
		NKRA	CBI	Commercial	NKRA
		Personal Care Products	CBI	Both	Yes
Ethylbenzene	100-41-4	Paints and Coatings	CBI	Commercial	No
		Paints and Coatings	ALTANA	Consumer	NKRA
		Paints and Coatings	ALTANA	Commercial	No

Chemical Name	CAS #	Product category	Company	Consumer and/or commercial use?	Used in products intended for children?
Ethylbenzene	100-41-4	Other (specify)	AMERICAS STYRENICS LLC	Commercial	No
		Paints and Coatings	BASF CORP	Commercial	No
		Fuels and Related Products	CBI	Both	No
		Fuels and Related Products	DELTECH CORP	Both	No
		Fuels and Related Products	LUKOIL PAN AMERICAS LLC	Both	No
		Lawn and Garden Care Products	TOTAL PETROCHEMICALS & REFINING USA INC	Both	No
		Food Packaging	TOTAL PETROCHEMICALS & REFINING USA INC	Both	Yes
		Building/Construction Materials not covered elsewhere	TOTAL PETROCHEMICALS & REFINING USA INC	Both	No
		Electrical and Electronic Products	TOTAL PETROCHEMICALS & REFINING USA INC	Both	No
		Toys, Playground, and Sporting Equipment	TOTAL PETROCHEMICALS & REFINING USA INC	Consumer	Yes
		Furniture and Furnishings not covered elsewhere	TOTAL PETROCHEMICALS & REFINING USA INC	Both	Yes
		Plastic and Rubber Products not covered elsewhere	TOTAL PETROCHEMICALS & REFINING USA INC	Both	Yes
		Arts, Crafts, and Hobby Materials	TOTAL PETROCHEMICALS & REFINING USA INC	Both	Yes
		Paints and Coatings	TOTAL PETROCHEMICALS & REFINING USA INC	Both	No
Styrene	100-42-5	Other (specify)	WESTLAKE CHEMICAL CORP	Commercial	No
		NKRA	AMERICAS STYRENICS LLC	Commercial	NKRA
		Other (specify)	AMERICAS STYRENICS LLC	Commercial	No
		Plastic and Rubber Products not covered elsewhere	AMERICAS STYRENICS LLC	Commercial	No
		Building/Construction Materials not covered elsewhere	BASF CORP	Both	No
		Fuels and Related Products	CBI	Both	No
		Paints and Coatings	COOK COMPOSITES & POLYMERS CO	Commercial	No
		Fuels and Related Products	DELTECH CORP	Both	No
		Plastic and Rubber Products not covered elsewhere	STYROLUTION AMERICA LLC	Commercial	NKRA
		Plastic and Rubber Products not covered elsewhere	TRANSAMMONIA INC	Commercial	NKRA
Plastic and Rubber Products not covered elsewhere	WESTLAKE CHEMICAL CORP	Commercial	NKRA		
4,4'-Methylenebis(2-	101-14-4	Plastic and Rubber Products not covered elsewhere	COIM USA INC	Commercial	NKRA
4,4'-Diaminodiphenylmethane (MDA)	101-77-9	Other (specify)	ACETO CORP	NKRA	NKRA
		CBI	CBI	Commercial	No
4,4'-Oxydianiline	101-80-4	Electrical and Electronic Products	CBI	Commercial	No
Epichlorohydrin (ECH)	106-89-8	Paints and Coatings	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No
		Adhesives and Sealants	MOMENTIVE PERFORMANCE MATERIALS HOLDINGS LLC	Commercial	No
1,2-Dibromoethane; Ethylene	106-93-4	CBI	ETHYL CORP	CBI	No
1-Bromopropane (n-Propyl bromide)(nPB)	106-94-5	Cleaning and Furnishing Care Products	CBI	Commercial	No
		Electrical and Electronic Products	ICL	Commercial	No
1,3-Butadiene	106-99-0	Other (specify)	CONOCOPHILLIPS CO	Commercial	No
		Other (specify)	KOLMAR AMERICAS INC	Commercial	No
		Other (specify)	KRATON POLYMERS	Commercial	No
		Plastic and Rubber Products not covered elsewhere	MICHELIN CORP	Both	No
		Plastic and Rubber Products not covered elsewhere	TRANSAMMONIA INC	Commercial	NKRA
1,2-Dichloroethane; Ethylene dichloride (EDC)	107-06-2	NKRA	CBI	NKRA	NKRA
		Plastic and Rubber Products not covered elsewhere	FORMOSA PLASTICS CORP USA	Both	NKRA
Acrylonitrile	107-13-1	Water Treatment Products	SNF HOLDING CO	Commercial	No
Toluene	108-88-3	Adhesives and Sealants	3M CO	Commercial	No
		Ink, Toner, and Colorant Products	3M CO	Commercial	No
		Paints and Coatings	3M CO	Consumer	No
		Paints and Coatings	3M CO	Commercial	No

Chemical Name	CAS #	Product category	Company	Consumer and/or commercial use?	Used in products intended for children?
Toluene	108-88-3	Adhesives and Sealants	3M CO	Consumer	No
		Other (specify)	AMERICAS STYRENICS LLC	Commercial	No
		Other (specify)	ASTRO CHEMICALS INC	NKRA	NKRA
		Paints and Coatings	BASF CORP	Commercial	No
		Fuels and Related Products	BASIN ELECTRIC POWER COOPERATIVE	Commercial	No
		Fuels and Related Products	BLACK ELK REFINING, LLC	Commercial	No
		Fuels and Related Products	CBI	NKRA	No
		Paints and Coatings	CBI	NKRA	No
		Fuels and Related Products	CBI	Both	No
		Fuels and Related Products	CHEVRON CORP	Both	No

See next page for table notes

**Entry notes** (found in chemical name column)

1. Toluene diisocyanate (TDI) (CAS # 26471-62-5) is a commercial mixture comprised of the following substances: 2,6-Toluene diisocyanate (CAS # 91-08-7) and 2,4-Toluene diisocyanate (CAS # 584-84-9). Data for all three CAS numbers have been combined under the CAS # 26471-62-5. See the U.S. EPA TDI Action Plan for more information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/tdi.pdf>.
2. Paraffin waxes and hydrocarbon waxes, chloro (CAS # 63449-39-8) is a short-chain chlorinated paraffin (SCCP). Data for the substance paraffins, chloro (CAS # 61788-76-9) which may also fall under the EPA's definition of SCCPs, has been combined under the CAS# 63449-39-8. It should be noted that not all records on the CDR for this CAS # necessarily fall within EPA's definition of SCCPs. For further explanation of the SCCP category, see "How we did our analysis," footnote 39 of the Toxics Across America report and the EPA action plan, Section III: Scope of Review: [http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps\\_ap\\_2009\\_1230\\_final.pdf](http://www.epa.gov/opptintr/existingchemicals/pubs/actionplans/sccps_ap_2009_1230_final.pdf)
3. Methylenediphenyl diisocyanate (MDI) (CAS # 26447-40-5) is a commercial mixture comprised of the following substances: 4,4'-Methylenediphenyl diisocyanate (CAS # 101-68-8), 2,4'-Methylenediphenyl diisocyanate (CAS # 5873-54-1), 2,2'-Methylenediphenyl diisocyanate (CAS # 2536-05-2). Data for all four CAS numbers have been combined under CAS # 26447-40-5. See the U.S. EPA MDI Action Plan for additional information: <http://www.epa.gov/oppt/existingchemicals/pubs/actionplans/mdi.pdf>.

**Column notes**

Chemical Name: Commonly used synonyms or acronyms are provided in parentheses.

CAS #: Chemical Abstract Service Registry Number, which is a unique identifier.

Product category: Indicates any reported commercial and consumer product categories for a given chemical. Companies can report product categories as "other (specify)"; although these specifications were provided to EPA, they are not currently available in the online CDR database. Companies can also report product categories as confidential business information (CBI) or not known or reasonably ascertainable (NKRA).

Company: As reported in the EPA 2012 Chemical Data Reporting Rule.

Consumer and/or commercial use?: Indicates whether a given product category represents a consumer or commercial use, or both. For the purposes of the CDR, "consumer use" refers to "the use of a chemical or a mixture containing a chemical (including as part of a manufactured item, or article, such as furniture or clothing) when sold to or made available to consumers for their use." "Commercial use" refers to "the use of a chemical or a mixture containing a chemical (including as part of an article) in a commercial enterprise, such as dry cleaning." Companies can also report whether or not a given product category represents a consumer and/or commercial uses as confidential business information (CBI) or not known or reasonably ascertainable (NKRA). For more information, see page 2 of EPA's "Fact sheet on Top Uses of Chemicals: A Snapshot of the Data" at [http://www.epa.gov/cdr/pubs/guidance/2nd\\_cdr\\_snapshot.pdf](http://www.epa.gov/cdr/pubs/guidance/2nd_cdr_snapshot.pdf).

Used in products intended for children?: Indicates if a given chemical was reported as being present in a product intended for use by children, which EPA defines to mean that the chemical is used in or on a product that is specifically intended for use by children age 14 or younger. Companies can also report use in products intended for children as confidential business information (CBI) or not known or reasonably ascertainable (NKRA).
