Subject: checking in on science, and other fronts

Dear Liz,

We just wanted to check in with you on a few different fronts, we are sure you've got a lot on your plate.

1. We've heard the new scientific advisory appointments are coming out tomorrow. Have you sorted out whether we can talk to anyone in advance on it? And more broadly, is there someone who would be able to speak about what's happening in terms of the agency's broader approach to science?

2. Is there anyone available to discuss what the agency is thinking of doing about the regulation of the production of chloroprene at a Louisiana plant—there is a request from its manufacturer, Denka, to revisit the scientific conclusions the agency had reached about it

back in 2010 through the Integrated Risk Information System, and then the House Science Committee Chairman Lamar Smith and a top subcommittee chairman wrote Administrator Pruitt about this topic earlier this month.

3. Is anyone going to be able to get back to us on the question we asked yesterday about a broader policy concerning EPA presentations at conferences, is that under John's portfolio?

4. And finally, on the glider rule I wrote about yesterday, you'll recall that when Administrator Pruitt spoke about this issue in August, he referred to the need to assess both EPA's legal authority to regulate these components under the CAA, and recent technical data. In terms of data, was he referring to the finding from Tennessee Tech that were submitted to EPA as part of Fitzgerald Truck Sales' petition for reconsideration of the rule?

Thanks, and again, we know these questions span a number of fronts, so we just wanted to put them on your radar screen sooner rather than later.

I want to give you all a heads-up that this Washington Post article will be running in tomorrow's paper (potentially on the front page). I am told that this will be about what is highlighted below in the original inquiry – that we are going back and reassessing the science done by the Agency in the past. It will also mention his calls for Red/Blue. I will send it around when it's available. Please call me if you have questions.

Subject: Re: touching base on our story

OFF THE RECORD: Below, please find a quote that I would really like to include, to address the premise of the article ... the additional background on chloroprene is more for background so you all understand the issue, but you can quote from all these as well... I am still checking on the glider kits testing, so I might need to get back to you. Also, the chlorpyrifos is a complicated issue that has been incorrectly reported by a lot of outlets, so if you need more information, please let me know. I don't want to overcomplicate it, as it doesn't seem to be the focus of your article, but I am happy to provide additional details if you feel it's needed. Please just remember that the Administrator never met with Dow's CEO and AP ultimately corrected that article claiming he did from an outdated schedule they received via FOIA (they were scheduled to meet, they didn't end up meeting). Thank you – Liz

“EPA reviews all comments, research and data submitted to the Agency, as part of understanding the issue, so that the Agency can make informed decisions.” – EPA Spokesperson Liz Bowman

On TCE: We are currently evaluating the request for reconsideration that was received under the Information Quality Act.

On Gliders: The Tennessee Tech study is part of information submitted to EPA that is pertinent to the Agency's approach to gliders.

-

On Chloroprene at the Louisiana plant: The Agency has received a formal Information Quality Correction Request regarding the IRIS assessment of chloroprene. This matter is currently under review. As such, we will not comment on the IRIS value at this time.

Additional background:

Clean Air Act section 112 lays out a schedule that requires both a risk and a technology review within eight years of issuance of a MACT standard. The law requires a technology review every eight years thereafter.

As part of Denka's Administrative Order of Consent with LDEQ, the company agreed to install control technologies to reduce emissions of chloroprene at the facility. Once these control devices are in place, EPA will be closely evaluating the emissions and collecting data that would inform a technology review of this source category.

Our primary objective is to reduce emissions in the near term. Installing control technologies will meet this objective faster than the regulatory timeframe.

<https://www.epa.gov/quality/epa-information-quality-guidelines-requests-correction-and-requests-reconsideration>; <https://www.epa.gov/la/laplace-louisiana-background-information>

On Chlorpyrifos: USDA had scientific concerns with studies used by activists to call for a ban on the pesticide chlorpyrifos (see attached letter) – concerns raised by the Obama Administration USDA. No decision on the 2007 petition was made throughout the entire Obama Administration. Administrator Pruitt denied the petition based on the lack of time, divergent views from the previous administration and because FIFRA pesticide reviews are more transparent than a petition serving as a back door 'sue and settle' approach.

Subject: touching base on our story

Dear Liz,

Hey there, I thought I'd just summarize where we stand on our story, which is still being edited. The overall theme of the story is how, Administrator Pruitt's tenure, EPA is taking a second look at how the agency has conducted analyses in the past (primarily scientific ones, including on air pollutants and chemicals). Broadly speaking, agency officials have shown a willingness to listen to concerns industry has raised about some of these studies, and look at analyses that companies and trade groups have sponsored themselves. In that context, we are looking at the glider rule, the chlorpyrifos decision and the ongoing regulation of chloroprene's sole manufacturer in the US. (We may touch on a couple of other things, but only in passing.) We are drawing on comments the Administrator made during his confirmation hearing on science, and we are also quoting Science Committee Chairman Lamar Smith on this topic, as well as various other voices.

We will touch on the upcoming appointments to scientific advisory boards, and issues like the propose to run a "red-team/blue team" exercise on climate, but that's not a major focus of the piece.

I think that covers it, and if you get further word on chloroprene, let me know. Also, there's one minor detail that I have learned that I just thought I'd run by you: my understanding is that EPA's staff is in the process of running its own emissions tests on a glider kit at an agency facility, and those tests are not completed. I don't need confirmation of this, but I thought I'd share it in case you want to run it past the appropriate EPA division. But since that's just extra work for you, I'd leave it to your discretion.

I think that's all on this story—if you have any questions (or if Brady wants to chime in, since we are working in different places today), feel free to follow up.

Also, do you think there will be some advance briefing on the scientific advisory appointments next week, if that is when they are actually announced?

Thanks, Juliet

Birdston, Md. 20838-5409

Dear Mr. Fitzgerald:

Thank you for your letter of August 17, 1977, regarding the Environmental Protection Agency's proposed rule for the control of greenhouse gas emissions from new light-duty vehicles. The EPA is currently reviewing your comments and will respond to you as soon as possible.

More specifically, you stated that the EPA's current policy of requiring the use of leaded gasoline in certain areas of the country is inconsistent with the Clean Air Act's goal of reducing air pollution. The EPA is currently reviewing your comments and will respond to you as soon as possible.

In light of the above, the EPA has decided to revise its rule regarding the use of leaded gasoline in certain areas of the country. The EPA is currently reviewing your comments and will respond to you as soon as possible.

If you have any questions, please contact the EPA's Office of Air Quality Planning at (202) 401-4466.

Respectfully,

August 17, 2017

Mr. Dane Keener
Indiana Phoenix Inc.
200 Dekko Drive
Avilla, Indiana 46710

Dear Mr. Keener:

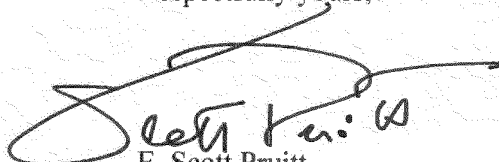

Thank you for your letter of July 10, 2017, requesting that the U.S. Environmental Protection Agency reconsider the requirements for gliders under the final rule titled *Greenhouse Gas Emissions and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines and Vehicles – Phase 2* (81 FR 73478, October 25, 2016) (*Phase 2 Rule*). Your letter raises significant questions regarding the EPA's authority under the Clean Air Act to regulate gliders as well as the soundness of the EPA's technical analysis used to support the requirements.

More specifically, your letter states that the EPA lacks authority over glider *vehicles* because they are not "new" motor vehicles and glider *kits* because they do not fall within the Clean Air Act's definition of "motor vehicle." In addition, it also raises concerns that the EPA relied upon "unsupported assumptions rather than data" with regard to the emission impacts of glider vehicles.

In light of these issues, the EPA has decided to revisit the provisions in the *Phase 2 Rule* that relate to gliders. We intend to develop and issue a Federal Register notice of proposed rulemaking on this matter, consistent with the requirements of the Clean Air Act.

If you have any questions regarding this response, you may contact Bill Charmley in the Office of Transportation and Air Quality at (734) 214-4466.

Respectfully yours,

E. Scott Pruitt

Brittany,

I'm sending what we have right now. It is clearly still a draft, and Nicole and

Bridgid will continue to work on it on Friday. The attached document has multiple placeholders, unanswered questions, and a variety of questions that you may or may not need to prepare for. Please consider this an early draft.

There are a few main sections to the document.

Ex. 5 - Deliberative Process

We will continue to refine this in the days to come.

Bill

To: Bowman, Liz <[Bowman.Liz@epa.gov](mailto: Bowman.Liz@epa.gov)>; Dennis, Brady <Brady.Dennis@washpost.com>

Subject: checking in on science, and other fronts

Dear Liz,

We just wanted to check in with you on a few different fronts, we are sure you've got a lot on your plate.

1. We've heard the new scientific advisory appointments are coming out tomorrow. Have you sorted out whether we can talk to anyone in advance on it? And more broadly, is there someone who would be able to speak about what's happening in terms of the agency's

broader approach to science?

2. Is there anyone available to discuss what the agency is thinking of doing about the regulation of the production of chloroprene at a Louisiana plant—there is a request from its manufacturer, Denka, to revisit the scientific conclusions the agency had reached about it back in 2010 through the Integrated Risk Information System, and then the House Science Committee Chairman Lamar Smith and a top subcommittee chairman wrote Administrator Pruitt about this topic earlier this month.

3. Is anyone going to be able to get back to us on the question we asked yesterday about a broader policy concerning EPA presentations at conferences, is that under John's portfolio?

4. And finally, on the glider rule I wrote about yesterday, you'll recall that when Administrator Pruitt spoke about this issue in August, he referred to the need to assess both EPA's legal authority to regulate these components under the CAA, and recent technical data. In terms of data, was he referring to the finding from Tennessee Tech that were submitted to EPA as part of Fitzgerald Truck Sales' petition for reconsideration of the rule?

Thanks, and again, we know these questions span a number of fronts, so we just wanted to put them on your radar screen sooner rather than later.

Subject: **Factually Inaccurate Statement in Pruitt Schedule article**

Hi Haley - I want to make sure you all understand that EPA, nor Scott Pruitt ever "relaxed Obama-era automobile standards." This is not accurate and we ask that you issue a correction.

The only thing we have done is reopen the midterm evaluation to consider the decision on time - April 2018. This may not seem like a big deal to you, but it is an important distinction. Not only is information available on our website, but I don't see any email or calls from you asking to confirm this fact before you went ahead and reported it. I am copying Amy here because she follows EPA and Administrator Pruitt closely and I find it hard to believe that she would miss this key fact or allow it to go unaddressed. Thank you - Liz Bowman

Mining, automobile, and fossil fuel executives are some of the big groups Pruitt has met with. Before relaxing Obama-era automobile fuel-efficiency standards, he met with General Motors, Ford Motor Co., and the "industry's lobbying arm" Auto Alliance. He met with the biggest commercial truck "glider" manufacturer in the U.S. before announcing he would "revisit an October 2016 decision to apply greenhouse gas emissions standards for heavy-duty trucks to gliders."

Subject: Revised draft of glider NPRM
Repeal of Emission Requirements for Glider Vehicles - NPRM - 10.17.17 - Rev6.docx

I revised the NPRM over the weekend. A new version ("Rev6") is attached. If you have not yet read/reviewed the version circulated this past Friday afternoon, please review this version instead.

If you *have* already reviewed the prior version, and have comments on, or revisions to, that prior version, you need not transfer them over to this new

Ex. 5 - Attorney Client; Deliberative Process

Thank you.

Subject: draft material for November 13 Regulatory Priorities Meeting
[ADPTracker-Report-2017-11-02-Meeting.docx](#)
[Agenda for Regulatory Priorities Meeting Nov 13.docx](#)

Hello Samantha –

In order to prepare for the Regulatory Priorities Meeting next Monday, we planned on following the same process as we did for the last two meetings.

1. Send out draft material tomorrow and ask that any updates by made by COB Wednesday.

a. Updated reports used at the last meeting

- ☐☐ Administrator signed actions with open comment periods;
- ☐☐ actions under OMB review;
- ☐☐ upcoming signature and OMB review milestones for Administrator signed documents; and
- ☐☐ upcoming ADP milestones actions.

b. Suggested other items for this meeting

- ☐☐ Upcoming to-do regarding long-term and inactive actions
- ☐☐ Administrator memo on consent decrees and settlement agreements
- ☐☐ Regulatory budget follow-up

2. Provide final material on Monday morning

Unless you think the meeting will be rescheduled or have questions, we'll proceed as outlined

above. If you think the meeting will be rescheduled, we'll hold off on distributing the material.

Thanks,

Nicole

Subject: Call with OMB on glider repeal NPRM

All:

OMB (Chad) just wrote and said this meeting will not be happening today at 4—they didn't give a reason. So there is no call today at 4pm.

They are looking at doing it tomorrow at 10:30 am. I'm going to move the schedule invite to 10:30am tomorrow, but be advised that that time is tentative as well.

I'll send more information out once I get it.

Ben

Subject: Glider NPRM status

Hi everyone:

Just a quick update on the glider NPRM. Once OMB received the passback yesterday, they circulated it to interagency reviewers and asked for comments by COB today. OMB will consolidate reviewers' comments and get back to us.

I think it's likely at this point that we won't hear more from OMB until Monday, though we could hear something tonight or over the weekend. We have shared with our OMB counterparts that EPA leadership is looking for clearance on this as quickly as possible. We'll provide updates as we get news.

Thanks,

Ben

All:

OTAQ has sent OMB the attached draft of the glider repeal NPRM.

Others may hear before we do on OMB's next steps (e.g., clearance) but we will share anything we hear.

Thanks

Ben

Subject: EPA passback to EO 12866 Interagency Comments on EPA Glider NPRM

Chad,

Attached please find EPA's passback on the draft NPRM "Repeal of Emission Requirements for Glider Vehicles, Glider Engines, and Glider Kits." This is a redline-strikeout as compared to the version that was uploaded on October 20, 2017 (which I believe had a date of 10/17/17 in the file).

Thanks,

Tia

Hi everyone,

I have not seen a package from OEX of this proposal to be signed. I went by and checked Ryan's desk and our log of folders that have been dropped off, and it is not listed. If that is integral to your press plan, then we need the document as soon as possible, along with an auto pen approval from someone with that authority, as it does not appear that Ryan is in the office today.

Thanks,

Subject: Re: OMB has cleared the glider repeal NPRM

I've shared draft materials as a heads up with the public affairs/press folks, letting them know that this is on the way. We'll want to get the final press release to Liz tonight or tomorrow morning and confirm the announcement time with them.

Sent from my iPhone

Subject: OMB has cleared the glider repeal NPRM

Hi everyone,

We just received word from OMB that they have cleared the Glider NPRM (with the change from "economically significant" to "significant").

Thank you,

Tia

Subject: RE: Why the draft glider repeal NPRM is Economically Significant

Ben,

Thanks for this.

In talking with Brittany a moment ago, she indicated that, given that OMB was the one proposing that the change be made from “economically significant” to “other significant,” she was fine with our changing the language as Tia has proposed.

Good Morning – attached is the latest roll out plan and updated press release for the proposed repeal of glider provisions (in the HDV Phase II standard).

Liz/OPA - let me (and John Millet) know if you have any suggested edits or are okay with the attached. The process team (OP/OAR/OEX) sent the rule to OEX this morning and is planning to get it signed before 11 am.

RJ – Be on the lookout for the signature package from Ellen.

11 am is the proposed press release time and when we will upload the pre-publication version. Let me know if anyone has questions/concerns.

FYI – I have a tentatively set the press roll-out/pre-publication upload for **11 am tomorrow**. While OMB has cleared the package, we will have to move it through the signing process tomorrow. I (along with OP) can provide status updates as it moves through the signing process and alert folks if there are any holdups and thereby delays to the 11 am release goal. I've also attached the roll-out plan from OAR comms. They have drafted a press release which I will review tonight and send around.

Let me know of any questions!

Best,

Mandy

Subject: Deregulatory web page update

Hello Brittany,

We received word today from OMB that the fall 2017 reg. agenda is not likely to be released until early or middle of next week. I hope your communications indicate the same information.

In the meantime, we've worked on an additional mockup of the new Deregulatory epa.gov page that we discussed with you just before Thanksgiving. You'll note a few things missing from this page, which will need to be added once the fall 2017 agenda publishes:

- [REDACTED] RIN hyperlinks
- [REDACTED] Hyperlinks for a few new actions
- [REDACTED] Reg budget summary information and link to OMB's site about it

Tomorrow we'll begin working with the programs to make sure all of the reg page links are correct.

Also attached for your reference are the comms materials we developed for this page and for the decommissioning of both [Reg DaRRT](#) and the [AIL](#) page. If you are comfortable with all of the attached, we can start creating the actual new web page, and working with OPA to review all materials.

Thanks,

Nicole

To: "Gunasekara.Mandy@epa.gov" <Gunasekara.Mandy@epa.gov>, "baptist.erik@epa.gov" <baptist.erik@epa.gov>
Subject: GHG 2 Glider Kit Sales

As a privately owned commercial truck dealer with operations in Baltimore, MD, Washington, D.C., Gainesville, VA and Hagerstown, MD I respectfully ask you to retain the volume cap ascribed to "glider sales" as written in the final Greenhouse Gas Phase 2 regulation. Today's new commercial trucks must meet strict US 2010 EPA emission standards through compliance with costly investment and development of DPF and SCR technology. Since gliders do not meet these same emission standards required of all original equipment manufacturers, they avoid the costs associated with componentry required to comply with GHG 2. Simply stated, glider kit sales represent and unfair competitive advantage.

Also, glider kit sales may not be subject to the 12% Federal Excise Tax (FET) paid by each new heavy duty truck sold effectively adding to a further price disadvantage

against my dealership sales. As you know, FET funds are directed to the Highway Trust Fund (HTF) to pay for infrastructure investments so each glider kit sold impacts the HTF's ability to fund important transportation funding.

Glider kit sales negatively impact my business and I urge the EPA to uphold the current GHG 2 regulation pertaining to glider kit sales.

Thank you.

My edits are included in the attached.

Ben, that is a good plan of action. In order to ensure coordination with OCIR and OPA,

shoot us a note when everything is ready to go and then wait for the final greenlight before hitting send.

Please let me know of any questions and/or concerns with included edits.

Best,

Mandy

Subject: "glider vehicles"

To whom it may concern,

As a private business owner with operations in Montana, Idaho, and Washington, I ask you to keep the volume cap on "glider vehicles" as written in the final Greenhouse Gas Phase 2 regulation.

Simply, glider vehicles are sold against us but with an unfair competitive advantage.

Today's new trucks meet US '10 emission levels by the installation of an expensive "chemical factory" behind the engine (the SCR and DPF). Because gliders vehicles don't meet the current emission standards, they avoid these expensive "chemical factories" that we, as conscientious business owners complying with EPA's strict emissions standards, provide our customers with the least amount of emissions possible.

Also, we are required to pay a 12% Federal excise tax on the sales price for every truck we sell. Glider Vehicles may not have to pay the excise tax. This tax is used to fund the Federal highway trust fund which helps pay for our roads and bridges. So, we are at a 12% unfair price disadvantage and the vehicles we sell to build highway infrastructure is impacted as the fund is lessened with every glider vehicle sold.

I have lost sales to glider vehicles and it negatively impacts my business. I simply want a level playing field so that we can fairly compete.

Please feel free to contact me at Brianb@transportequip.com.

Regards,

Brian Bidlake

Hayley,

It appears that the Administrator has a full day today, so I wanted to flag a couple items for you to consider:

Not Responsive; Ex. 5 - Attorney Client

Ex. 5 - Attorney Client; Deliberative Process

So, we might need to open the 3:15-4:15 p.m. hour to items Nos. 2 and 3. Happy to discuss.

Thanks!

Subject: Upcoming deadlines

Hey Will and Daisy—

Can you two work together to put a list of upcoming comment period deadlines (comment periods closing on proposed CPP withdraw, ANPRM CPP, glider kits, CERCLA/EPCRA livestock emissions reporting effective date, CCR etc.) by Friday? I would also need you to write out the full technical name of the regulatory action (so no abbreviations).

Liz, Clint, David and I had a couple groups at the Cooler Heads coalition meeting requested an aggregated list of this information. The goal would be to get it to them the same day the additional CPP listening sessions are announced, so we can add them to the list as well. Shouldn't be too hard to put together, and perhaps such a list already exists?

Subject: Draft Material for Regulatory Priorities Meeting

Hello All –

Attached is draft material for the Regulatory Priorities Meeting on Wednesday at 1pm.

The material includes reports of (1) Administrator signed actions with open comment periods; (2) actions under OMB review; (3) upcoming signature and OMB review milestones for Administrator signed documents through October 31; and (4) ADP milestones actions through January 19, 2018. The report is based on information in ADP Tracker as of yesterday afternoon.

Please review the attached material to make sure it is complete and accurate. Please make any necessary updates to ADP Tracker by COB tomorrow as we plan to generate final materials for distribution before the meeting on Thursday. Specifically, please examine projected dates and make sure they are accurate and not out-of-date. Note that an action will not appear in any of the lists in (3) unless the Administrator has been designated as the signer in ADP Tracker.

Also attached is the list of EPA's current inactive actions.

If you have any questions, please let us know. Your regulatory staff can contact me via email or at Ex. 6 - Personal Privacy

Regards,

Nicole

Brittany,

I'm sending what we have right now. It is clearly still a draft, and Nicole and Bridgid will continue to work on it on Friday. The attached document has multiple placeholders, unanswered questions, and a variety of questions that you may or may not need to prepare for. Please consider this an early draft.

There are a few main sections to the document.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

Nope. We have a follow-up call with OMB today 4-5pm and should have better idea after that conversation. Will be sure to update OPA when we have more concrete time. For now, I'd say the earliest it would be ready is Wednesday.

Subject: Call with OMB on glider repeal NPRM
When: Monday, November 6, 2017 9:00 PM-10:00 PM.
Where: DCRoomARN6524/DC-OAR-OTQA-IO

All: OMB just indicated that they'd like to have a follow up call on the glider NPRM passback. We will be jumping on a call today at 4pm.

We have not received any new material from OMB – all we know is that they'd like to have a discussion on what we sent last week.

I know this is late notice, but OMB only gave us a few windows to talk, and this one seemed like the best fit.

For those that want to join, we will be gathering in 6524 in Clinton North. I'm attaching the version of the document we sent to OMB on Nov 2 (last Thursday).

I'll add dial-in information shortly.

Mandy, Brittany and Aaron,

Maddy was told today that she had a delivery, and when she picked it up, she was handed the attached document, with no other information. Apparently it was delivered in a self-addressed envelope and it is dated today.

As you can see it's a Petition for Reconsideration of Application of the Final Rule Entitled "Greenhouse Gas Emissions and Fuel Efficiency Standard for Medium- and Heavy-Duty Engines and Vehicles—Phase 2 Final Rule" to Gliders.

If I can be of any additional service, please let me know.

Subject: Proposed Phase 2 Regulatory Language

California Air Resources Board (CARB) staff is providing for your review draft regulatory language regarding Phase 2 greenhouse gas (GHG) regulation and tractor-trailer GHG regulation. Staff will bring a proposed California Phase 2 program before the Board in February 2018.

This is an informal draft regulatory language review period, prior to the public comment period. Your comments are valuable to the success of these proposed amendments and regulations. You also will have an opportunity to comment on these and all changes during the formal 45 day comment period for the proposed draft regulatory proposal prior to the February Board hearing.

Please return your comments via e-mail to Mitzi Magtoto at mitzi.magtoto@arb.ca.gov no later than noon (PST) on October 20th. If you would like to meet with CARB staff

either in person or via conference call, please call or e-mail Mitzi at 916-323-8975. The following is a bullet summary of the documents attached for your review:

- CCR, title 13: Phase 2 engine standards, warranty, useful life, heavy-duty facility records inspection, and following test procedures incorporated by reference:
 - California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Diesel-Engines and Vehicles
 - California Exhaust Emission Standards and Test Procedures for 2004 and Subsequent Model Heavy-Duty Otto-Cycle Engines and Vehicles
 - California Environmental Performance Label Specifications for 2021 and Subsequent Model Year Medium-Duty Vehicles, Except Medium-Duty Passenger Vehicles (new)

- CCR, title 17: Phase 2 vehicle standards for MDVs, vocational vehicles, tractors, and trailers; Tractor-trailer GHG Regulation, and the following test procedures incorporated by reference:
 - California Greenhouse Gas Exhaust Emission Standards and Test Procedures for 2014 and Subsequent Model Heavy-Duty Vehicles
 - California 2015 and Subsequent Model Criteria Pollutant Exhaust Emission Standards and Test Procedures and 2017 and Subsequent Model Greenhouse Gas Exhaust Emission Standards and Test Procedures for Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles

If you need a refresher regarding the areas where CA Phase 2 may differ from Federal Program, see tables in slides 6 and 7 and slide beginning 21
https://www.arb.ca.gov/msprog/onroad/caphase2ghg/20170831_workshop_presentation.pdf.

For background on the amendments and proposed regulatory items please visit the following webpages.

Hello,

Earlier this week, you should have received the attached documents from Thea Williams requesting responses by COB today. She is out today, so I am following up to check on the status your back to OCIR for review.

Please provide an update as to when we can expect your drafts. Please note that today is a hard deadline.

Thanks in advance for your help!

Subject: NYT request - deadline Monday noon

Hi Liz - I hope you're having a good weekend. Sorry in advance to ruin it.

Eric Lipton (copied above) and I are working on a story for tomorrow based on the latest FOIA releases of Mr. Pruitt's calendar. We have a couple big picture questions for you and would like to confirm with you that a number of the meetings reflected on his calendar, which we will reference in the story, did in fact take place.

Our deadline is noon tomorrow (Monday, Oct. 2).

Thanks so much - questions and meetings to confirm are below. If you want to talk

directly, my cell is Ex. 6 - Personal Privacy

Best,

Lisa

1. On Mr. Pruitt's schedule overall, what is the reason for the large number of meetings with CEOs of companies and industry associations who are regulated by the EPA?
2. Is it appropriate for Mr. Pruitt to be spending such a large amount of time, in private settings, meeting with senior industry executives and lobbyists, from the same industry sectors that he has pending decisions before him, related to items like clean power plan, waters of the United States, pesticide regulations, TSCA, CAFE standards and other issues.
3. Does the extensive number of such meetings create an institutional bias for Mr. Pruitt's that favors industry arguments.
4. We count almost no meetings with consumer advocates, public health groups or environmental groups other than the American Academy of Pediatrics, Trout Unlimited and C2ES. Are there others that you'd like to point out? Can you speak to why his schedule reflects so few meetings with public interest, consumer and environmental groups?
5. Circling back to Mr Pruitt's trips home to Oklahoma... It appears from his schedule that there were no events on Friday, May 19 and one tour of a chemical company on May 20. Can you tell me how many hours that tour lasted? Were there any other events not reflected in the calendar for that trip?
6. During a visit to Oklahoma on Friday, May 5, 2017, records show that Mr. Pruitt had a one-hour lunch meeting with an executive from the National Rural Water Association;

Tulsa, OK. Was this an appropriate justification for a government financed trip to Oklahoma.

7. A travel voucher, page 7 see attached, says this: "The Administrator will be traveling to Pittsburgh to participate in Tour of Harvey Mine, participate a in press conference with the Mine leadership then to Tulsa to conduct meetings in the state and to serve as a keynote speaker for ALEC event; then to Chicago to visit a Superfund site in East Chicago IL; then to Columbia, MO to visit Thomas Hill Electric and to meet with the Governor; then to Tulsa to meet for meetings in the state; then to Dallas for Earth Day; then to Naples tn serve as key"

Can you confirm that the meeting in Oklahoma where Mr. Pruitt served as the keynote speaker for ALEC event occurred. .

8. We have copies of two sets of travel voucher releases for Mr. Pruitt, both attached. Have others been released by the agency since January and if so, can you please provide us with a copy of those.

9. Here's a list of the meetings of which we make note in the story. Again, if one of these did not occur as it is listed in the calendars, please let us know.

March 6

speech to National Association of Manufacturers, Scottsdale Ariz.

March 17

BMW chairman Harold Krueger & other BMW execs

March 27

A.J. Ferate, vice president of regulatory affairs at the Oklahoma Independent Petroleum Association

April 15

On April 15, the North Dakota Farm Bureau and the North Dakota Association of Rural Electric Cooperatives

April 24

National Mining Association speech in Naples, Fla.

April 26, 2017:

Time 11:00 AM - 11:30 AM Subject Meeting with Interstate Oil and Gas Compact Commission Location Administrator's Office

Time 11:30 AM-12:00 PM Subject Meeting with General Motors Location Administrator's Office Attendees: Craig Glidden, General Counsel/EVP Law and Public Policy, General Motors, Dan Turton, GM North America Vice President, Public Policy, Michael J. O'Bannon, EOP Group, Inc., President

Lunch with Gary Smith and Executives Location Location: Equinox Restaurant Staffing: Ryan Attendees: Mark Crosswhite, Zeke Smith, Quentin Riggins, Gary Smith, Horace Horn, Beth Woodard, Jessica Garrison POC: Jessica Garrison

6:30 PM - 8:30 PM Attendance Organizer Required Required Subject Dinner with Alliance Resource Partners LP Board of Directors Meeting Location Trump Hotel; BLT Prime; Grant Room Show Time As Busy Topic: similar NMA topics Location: Trump Hotel; BLT Prime; Grant Room Staffing: Attendees: Quarterly Meeting with Directors & Senior Management (16 persons)

April 27

Auto Alliance

April 28

Meeting with the National Sorghum Producers

May 4, 2017

Tony Perkins, Family Research Council

CropLife America

May 8, 2017

Tommy Fitzgerald, gliders

May 11

Speech to Heritage in Colorado Springs

May 15, 2017

Mark Vergnano, Chief Executive Officer, Chemours

Bruce Culpepper, the president of Shell Oil Co.

May 18, 2017

Kevin Crutchfield, Contura Energy

State Policy Network call

May, 18, 2017

Roy Bailey, Mr. RJ Kirk; Lt. Gen. (Ret.) Tom Bostick, from Intrexon

Team – thanks again for your help last week getting the MTE request for comment out the door. Next up, we want to put on your radar two letters we plan to send today on our intent to reconsider the trailer and glider provisions of EPA’s Phase 2 heavy-duty GHG standards. I’ve attached the petitions for reconsideration and our draft response letters to this email. Please let us know if you have any questions.

Best,

Brittany

From: Dan Byers
Sent: Tue 11/21/2017 8:48:56 PM
Subject: Don't Miss the Latest Updates to the Energy Tracker

Dear Samantha,

Since we launched the Global Energy Institute – Beveridge & Diamond Tracker in mid-October, a number of regulatory and litigation developments have taken place. These are all covered in the latest version of the Tracker, available here for review. Updates since the last edition are presented in reverse chronological order, and include the following notable actions:

- **11/9/17: EPA proposes to repeal** glider provisions of the heavy-duty truck phase II GHG and fuel efficiency standards.
- **11/9/17: D.C. Circuit grants additional 60-day abeyance of Clean Power Plan litigation.**
- **11/8/17: EPA announces** public hearing on proposed CPP repeal, and extends comment deadline on proposal to 1/18/18.
- **11/6/17 - 11/8/17: D.C. Circuit grants, then lifts, temporary stay of construction on Atlantic Sunrise pipeline.**
- **10/25/17: Department of Energy, Department of Interior, and EPA** issue reports on regulations that potentially burden domestic energy production.
- **10/24/17: Secretary Zinke announces** auction for over 76 million acres of offshore oil and gas leases in the Gulf of Mexico for March 2018 (the largest oil and gas lease sale in U.S. history).

Stay tuned for additional updates in the coming weeks and for our year-end tally on all energy related regulatory and policy reforms. Happy Thanksgiving!

Sincerely,

Dan Byers

Contact Information: press@epa.gov

EPA Announces Intent to Revisit Provisions of Phase 2 Heavy-Duty Rules

WASHINGTON (August 17, 2017) —The U.S. Environmental Protection Agency (EPA) announced today its intent to revisit provisions of the Phase 2 Greenhouse Gas Emissions and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines following concerns raised by stakeholders in the trailer and glider industry.

“In light of the significant issues raised, the agency has decided to revisit the Phase 2 trailer and glider provisions,” **said EPA Administrator Scott Pruitt.** “We intend to initiate a rulemaking process that incorporates the latest technical data and is wholly consistent with our authority under the Clean Air Act.”

Background:

In September 2011, EPA and the National Highway Traffic Safety Administration (NHTSA) issued greenhouse gas (GHG) emissions and fuel efficiency standards for medium- and heavy-duty vehicles for model year 2014-2018 (“Phase 1”). These standards applied to newly manufactured engines, tractors, vocational vehicles, large pickups, and vans. In October 2016, EPA and NHTSA updated the standards for medium- and heavy-duty vehicles MY 2021-2027 (“Phase 2”), and regulated trailers and gliders – for the first time under the GHG program – with compliance deadlines beginning in 2018.

[Sec. Pruitt EPA gliders.pdf](#)

Hi Mandy,

I hope you're doing well! I have attached a letter Representatives Blum and Young have sent to Administrator Pruitt expressing their concerns regarding the inclusion of gliders and glider kits in Phase 2 of the Greenhouse Gas and Emissions Fuel Efficiency Standards for Medium and Heavy Duty Vehicles. Jon Toomey with Rep. Black told me he has been working with you on this issue. Please let me know if you have any insight on the issue or if there's additional steps we could take to express opposition to the glider provision of the rule.

Thank you!

Subject: Glider response letter (revised draft), plus some other materials

Hi folks—attached is an updated draft glider response letter for your review.

Please note that OGC career staff have not reviewed the draft letter yet (Mark was out; David is out). I'm copying Mark (who returns to the office today) and Lorie here so they have a chance to look at this as well.

A few additional edits from me, mostly formatting (figured I'd add this now to speed up review when they get the letter downstairs). I also put in BW's required sig block for non-Congressional letters, which you can copy & paste in future letters later.

Subject: Revised draft of glider NPRM

I revised the NPRM over the weekend. A new version ("Rev6") is attached. If you have not yet read/reviewed the version circulated this past Friday afternoon, please review this version instead.

If you *have* already reviewed the prior version, and have comments on, or revisions to, that prior version, you need not transfer them over to this new version. I can do that easily enough.

All (Karen – I'm including you in Kristi's absence):

Below is the OAR November Tiering List. It would be most helpful if you could respond before noon on Monday, November 13th (I will be in all day meetings the next three days, so I have a small window to meet OP's deadline).

Also, it would be helpful to know if none of these fall into your practice group (so if I need to follow-up, I don't have to bother you).

Thanks,

Andy

Thanks very much for your email.

I'm trying an experiment and only checking email twice a day (noon and 4 pm).

If this is an urgent matter, then please call or come see me. If not, then I appreciate your patience in awaiting a reply. If you're curious about this experiment, then see below for updated details.

Best,

Christy

More info on this experiment:

•☐☐☐☐☐☐☐☐ **Why do the experiment?:** I've read a number of articles suggesting that productivity increases when email is batched (see below for example article); I also conducted a pilot experiment in September and found this approach very helpful.

•☐☐☐☐☐☐☐☐ **How long is the experiment?:** 66 days starting from Oct. 3, 2017

•☐☐☐☐☐☐☐☐ more below on why 66 days

•☐☐☐☐☐☐☐☐ **What metrics will I use to measure "success"?:**

•☐☐☐☐☐☐☐☐ Participant satisfaction (do I feel like I accomplished my most important tasks of the day when I walk out the door at the end of the day); 1 -5 scale

•☐☐☐☐☐☐☐☐ Focused working hours (# of hrs/ day of uninterrupted time on one task); # of hrs
1 - 8

- # of hrs on email (# of hrs/ day spent reading/ answering email); # of hrs 1 - 8
- # of "emergencies" (things that I missed due to not checking email)

Resources related to this experiment:

Hello ADDs:

Ex. 5 - Attorney Client; Deliberative Process

They are asking for our input by FRIDAY JAN. 26, 2018 COB. As you know, we are already under a heavy load, and with the SES meeting next week, it's going to be difficult to get full attention on this. Please work with your Deputies to review our proposed responses.

I will see if we can get an extension...

Thanks

R

Hi Dave, how are you? I sent this email to Lorie about a meeting concerning the Gliders NPRM, and don't know if she is around or not. Could you let me know if she is around? I was assuming she'd talk with you and Mark in any case, and presumably have the three of you in any meeting. Could you follow up with Lorie on this? Thank you!

John

**Cc:** steven silverman <pianolawyer@outlook.com>

Hi Lorie,

How are you? Hope things are going well.

Steve Silverman and I have been working on responses to a recent EPA proposal concerning glider vehicles, on behalf of the International Council on Clean Transportation (me) and the Environmental Defense Fund (Steve). The NPRM was published in November, and the comment period closes on January 5<sup>th</sup>. Would it be possible for Steve and I to talk with you about the proposal sometime during the early part of next week? Hopefully that would work for you as well as anyone else you want to invite.

Times that would work for us are Monday the 8<sup>th</sup> all day, Tuesday before 11:00, or Wednesday between 11:00 and 12:00. I think a relatively short meeting would work fine.

I will send you the comments submitted by ICCT and EDF before the meeting.

Hopefully this works, it would also give us a chance to catch up on things in general.

**Subject:** RE: HD glider rescission rule - OMB review file

Hi all,

Attached is what was apparently uploaded this afternoon. I just connected with Chad, and OMB was also unaware that it had been uploaded. Chad is going to circulate things to the Interagency reviewers ASAP, but not sure what this means for the [reginfo.gov](http://reginfo.gov) website (it may not show up there as being under 12866 review until sometime Monday).

OMB has requested a briefing on Monday at 4pm, and a follow-up call on Tuesday at 10am (mostly to talk legal issues). I will check schedules now, but please let me know if these options do not work for you at all.

Thanks,

Tia

**Subject:** HD glider rescission rule

The HD glider rescission rule has been uploaded, evidently. We had not heard whether it was going to happen or not but Tia just heard from OP that it happened.

Tia is working now to get the version that was transmitted to OMB. We will circulate it just so we know where things stand.

According to Chad at OMB, we should expect a request for a briefing on it early next week, and perhaps a specific call on legal issues.

Ben

They are only about 6 pages, but a few excerpts--

There has been no “bending” of the law. To the contrary, any “bending” has just recently occurred.

EPA’s decision to allow the unchecked growth of the glider market and encourage the continued sale of antiquated engine technologies grossly undermines the investment decisions of thousands of companies, organizations, and businesses. The public expects more from their EPA in helping communities across the nation achieve attainment with the NAAQS.

The agency clearly has both the legal authority and the obligation to protect both human health and the environment. Now is the time to carry out the congressional charge of the agency and not be influenced by special interests.

Hi John,

I will check in with Lorie—I think she is out part of today and may have been busy because the new general counsel is starting Monday. For what it's worth, my own inclination is the right people for you to meet with would be David Harlow (who is counselor to the AA, a la Joe Goffman) and/or Erik Baptist, the senior political deputy in the OGC front office (but again the arrival of the general counsel, and the impending arrival of a new baby for Erik Baptist, may make scheduling with the front office, if not us too, somewhat difficult).

Hi Dave, how are you? I sent this email to Lorie about a meeting concerning the Gliders NPRM, and don't know if she is around or not. Could you let me know if she is around? I was assuming she'd talk with you and Mark in any case, and presumably have the three of you in any meeting. Could you follow up with Lorie on this? Thank you!

John

Hi Lorie,

How are you? Hope things are going well.

Steve Silverman and I have been working on responses to a recent EPA proposal concerning glider vehicles, on behalf of the International Council on Clean Transportation (me) and the Environmental Defense Fund (Steve). The NPRM was published in November, and the comment period closes on January 5<sup>th</sup>. Would it be possible for Steve and I to talk with you about the proposal sometime during the early part of next week? Hopefully that would work for you as well as anyone else you want to invite.

Times that would work for us are Monday the 8<sup>th</sup> all day, Tuesday before 11:00, or Wednesday between 11:00 and 12:00. I think a relatively short meeting would work fine.

I will send you the comments submitted by ICCT and EDF before the meeting.

Hopefully this works, it would also give us a chance to catch up on things in general.

John

Subject: RE: HD glider rescission rule - OMB review file

Hi all,

Attached is what was apparently uploaded this afternoon. I just connected with Chad, and OMB was also unaware that it had been uploaded. Chad is going to circulate things to the Interagency reviewers ASAP, but not sure what this means for the reginfo.gov website (it may not show up there as being under 12866 review until sometime Monday).

OMB has requested a briefing on Monday at 4pm, and a follow-up call on Tuesday at 10am (mostly to talk legal issues). I will check schedules now, but please let me know if these options do not work for you at all.

Thanks,

Tia

Subject: HD glider rescission rule

The HD glider rescission rule has been uploaded, evidently. We had not heard whether it was going to happen or not but Tia just heard from OP that it happened.

Tia is working now to get the version that was transmitted to OMB. We will circulate it just so we know where things stand.

According to Chad at OMB, we should expect a request for a briefing on it early next week, and perhaps a specific call on legal issues.

Ben
