Subject: RE: Small Business Exemption as a Glider Vehicle Assembler

Steve,

You're right in questioning this one. I did some digging and don't find anything close to this name in 2014, or a customer this size that I don't already know about. It is possible they worked strictly as a third party assembler and don't show up in our history before we started tracking assemblers. Or they could have operated under another name. I don't see a likely candidate this size. But it's two partners with two locations, so perhaps they merged operations. So it's technically possible.

I haven't heard from any Peterbilt dealers planning to use this company, and neither has my counterpart at Kenworth.

If I were you, I'd ask for some documentation – a list of VINs, or a breakdown of the 49 by OEM.

Subject: FW: Small Business Exemption as a Glider Vehicle Assembler

Deb,
Sorry to bother you again, but I received this other small business notification letter yesterday that has raised a red flag. The small business, East Texas Truck Center, claims to have built [REDACTED] gliders in 2014 with a total staff of 17. They appear to offer repair services, truck sales and parts. Their glider sales all appear to be Kenworth and Peterbilt. The volume of gliders built would put them in PACCAR's top ten glider builders. Is this possible?

Thanks for your help.

Re: Small Business Provision Back Yard Auto, LLC

Dear Mr. Healy,

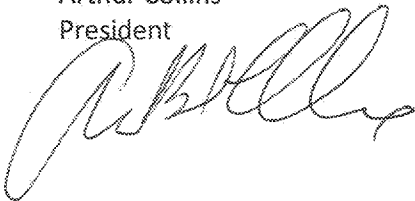

Pursuant to your email to Mr. Harry Powers at Barr International Truck Center, following please find our statement of small business criteria as outlined under 40CFR 1037.150 (c) as well as 13CFR 121.201. Back Yard Truck Auto, LLC currently employees 3 people performing truck repair and services. The company is solely owned by Arthur Collins. Mr. Collins also solely owns Art Collins Trucking, Inc. This business also employs 3 people. Backyard Truck and Auto, LLC as well as Mr. Collins affiliated business have had 3 employees each for the past 3 years.

Also please be advised, Backyard Truck and Auto, LLC has assembled [REDACTED] during the 2010-2014 time period.

We believe this information should meet the qualifications for the small business allowance. Should you have any questions or require any additional information please do not hesitate to contact us,

Very Truly Yours,

Arthur Collins
President

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

D+D Sales

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

JBS**Small Manufacturer Status Certification**

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

A copy of this reviewed and accepted notification is attached with this request. Initial Here

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Subject: Gliders

Steve, thank you for responding on our questions about buying new 98 emission glider trucks. At this time what we are wanting to know, is if the option is there for us to purchase glider trucks through the year 2020 with the 98 emissions and how many we can buy? Also who will be able to assemble these trucks?

Thanks

Sharon,
Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

Robert Roark Trucking

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year 2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here RR

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Subject: Glider kits

Stephen,

I am inquiring on how – if possible – that my repair facility would be able to assembly class 8 glider kits. We have assembled them in the past for customers for customer but I know there has been changes. Any help or information is appreciated.

Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [redacted] in 1993, [redacted] in 1997, [redacted] KW in 2001, [redacted] in 2007, [redacted] 2009 model year [redacted] in 2009, [redacted] 2011 model year [redacted] in 2010-2011.

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

- [redacted] d to Dairyway Tremonton, UT 2012
- [redacted] d to Roy's Truck Rowlett, TX 2013
- [redacted] d to Bouma Truck Sales, Choteau, MT 2014
- [redacted] d to Bouma Truck Sales, Choteau, MT 2015
- [redacted] d to Bouma Truck Sales, Choteau, MT 2016
- [redacted] d to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks

On 3/22/2018 7:47:05 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Sharon,

The regulations require that A&R have sold at least one glider to an unrelated entity in 2014. The letter shows that no gliders were built in the 2011 through 2014 timeframe. Also AA&S Corporation appears to be an affiliate of A&R Transport as they share the same business address. What brand of gliders is A&R intending to build – PACCAR (Peterbilt and Kenworth) or Daimler (Freightliner or Western Star)?

Thank you,

Steve Healy

Sharon,

Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

We have build gliders for people that ordered them and had them delivered to us but it wasn't a sale. We were hired to assemble them.

On Tue, May 22, 2018, 10:27 AM Healy, Stephen <healy.stephen@epa.gov> wrote:

Chris,

To qualify for the EPA small business glider regulation provisions you must have sold at least one glider to another company in 2014. The small business glider regulations are in 40 CFR 1037.150(t). Here is an excerpt from the regulation that clearly states this:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the complete regulation section if you would like to read it.

To whom it may concern,

We are applying for a small business exemption for glider builders under the small business criteria listed in 13 CFR 121.201. We fall below the employee threshold for Heavy Duty Manufacturers. At Francis Diesel Service we have had 9 employees for the last 3 years. Affiliated companies include Francis Transportation of which has had 14 employees for the last 3 years and Francis Trucking of which has had 38 employees over the last 3 years. All companies are solely owned by Marsha Francis.

We have built [REDACTED] in 2010, [REDACTED] in 2013, and [REDACTED] in 2014. We built the gliders for customers not affiliated with us. We appreciate the opportunity to be able to continue to do business as a glider builder.

We are planning to order and build [REDACTED] during the 2018 calendar year (2019 build year). We will be ordering gliders from paccar.

Sincerely Marsha Francis,

A PACCAR COMPANY

Written Request for Shipment of Exempt Glider Kit to Glider Vehicle Assembler with a Small Business Exemption

Enter Company Name Stephan Leasing Inc. / DRP Repair
(hereinafter referred to as "Requestor"), pursuant to the requirements found in 40 CFR 1037.150(t)(1), is submitting this written request to Peterbilt Motors Company to build and deliver the following Peterbilt glider kit(s). Please complete the table below.

Requested Glider Kit: (use second page for more than one)

Chassis Number	Ordering Dealer	Customer Name ¹	Replacement Vehicle VIN ¹	Engine Model Year ¹	Engine Mileage ¹

Requestor will complete assembly of the glider kit(s) by installing all missing components. This could include, but not limited to, the engine, transmission, rear axle(s), and exhaust/aftertreatment components. The vehicle(s), once assembly is complete, will be exempt from the requirements of 40 CFR 1037. All engines used in glider vehicles (including remanufactured engines) must be in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Small Business Status

Requestor meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, Requestor has notified the Designated Compliance Officer of the U.S. Environmental Protection Agency (EPA) as required in 40 CFR 1037.150(t)(1)(i). Requestor certifies that a copy of the reviewed and accepted notification for this model year has been previously provided to PACCAR Inc.

Production Limits

Requestor certifies that production will not exceed the production limits of 40 CFR 1037.150(t)(1) and that it sold at least one glider vehicle in calendar 2014.

Labeling

Requestor understands that the requested glider kit will contain a Greenhouse Gas Emissions label indicating that the vehicle and its engine are exempt in accordance with §1037.150(t)(1). This label must remain affixed to the vehicle and not removed by the glider vehicle assembler.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Once received, Peterbilt will review the information to ensure accuracy. If Peterbilt determines that the requested glider kit requires the application of alternative regulations, a Peterbilt representative will contact Requestor to outline additional requirements and obtain needed information.

Requestor acknowledges that submission of this form is deemed to be a submission to EPA and California Air Recourse Board if applicable, and that Peterbilt Motors Company may provide a copy to the Agencies.

Dear Mr. Healy,

This letter is to notify EPA that we intend to utilize the small business provisions as our company meets the small business criteria listed in 40 CFR 1037.150 c and the small business criteria specified in 13 CFR 121.201.

Ownership Structure of Freightliner of Savannah, Inc.

- E. Jason Williams 52.5%
- Joseph M. Williams 47.5%

Ownership Structure of Affiliate Freightliner of Augusta, LLC

- E. Jason Williams 100%

The total number of employees of both companies for the past three years is as follows:

- 2015 86
- 2016 90
- 2017 89

Thank you.

Sincerely,

Subject: RE: Scott's Hauling Small Business Exemption....

Al,

It looks like Scott's Hauling qualifies as a small business, but if they did not build a glider in 2010 – 2014 then they would not be allowed to build up a glider using an engine older than 2010 model year.

Here is the regulation section:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section

Please let me know if you have any questions.

Subject: Scott's Hauling Small Business Exemption....

Stephen good morning, I have a question on this one. In my discussions with the dealer it has come to my attention that Scott's Hauling did [REDACTED] That is the rule in order for them to even qualify for 2018 build correct?

I noticed on the form they said they submitted that they gave you no build info, in fact the last paragraph on the letter you stamped says they built [REDACTED] glider in 2016?

They are trying to order a glider for a wreck replacement, the original chassis was built in 2001 and the engine has over 500K miles. My communication with them has been that we cannot approve the build as this not within Useful Life

1037.635 (C)(1)(i). It has also been my communication that Scott's Hauling does not qualify as an approved Exempt Builder in 2018.

Can you help me clarify please?

Thanks,

Al Denning

Subject: Re: Glider Small Business Exclusion Information
Attachments: Scan_0367.pdf

Attention Stephen!

On Tuesday, December 5, 2017, 10:26:47 AM EST, Healy, Stephen wrote:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Nolt Carriers LLC – Glider Kit letter of Notification

I, Aaron Nolt Jr. , started my own business in 1990, at the age of 19, when I bought my first tractor-trailer truck. I started totally on my own, and still today I am the sole owner of my business. I have no affiliations with any other companies. As the years passed I hired more employees one by one. Some employees to drive truck hauling Ag commodity products, and other employees to work in our truck repairs garage. We repair our own trucks and trailers, and also do repairs for other customers. We parts out old equipment, but also fix up used trucks and sell them again. I along with my mechanic employees, put together our first glider kit in the year 2010. Between the years 2010-2015 we averaged [REDACTED] a year, the total number of gliders we have put together thus far is [REDACTED]. We built a few for our own company, but mostly for other customers. On Jan. 1st 2017 we did a name change to -Nolt Carriers LLC-, we kept the same address, and the same DOT number. In the year 2014 I had 5 employees, in 2015 i had 6 employees, in 2016 i had 7 employees, and this year my company has 8 employees.

If you have any questions concerning my company please give me a call at 717-278-2635, or an email to aaronnoltjr@yahoo.com .

Dear Mr. Healy,

Jerseyville Truck Repair, LLC is notifying you to request small business exemption status as a Glider Vehicle Assembler. JTR has employed between 2-4 employees within the past 3 years and currently has 4 full-time employees. Richard D. Darr is the sole owner of the business and has no other company affiliations. Jerseyville Truck Repair has built the following gliders between 2010- 2014:

- 2010
- 2011
- 2012
- 2013
- 2014

Thank you for your help regarding this matter and please let me know if you need any other information.

Sincerely,

A handwritten signature in black ink, appearing to be 'Richard Darr'.

Richard Darr (Owner)

Subject: Glider Vehicle Compliance Inquiry

Hi Stephen,

I'm an attorney in North Carolina and I am attempting to determine how the Phase Two regulations apply to a client involved in the trucking industry. Any help you could provide would be greatly appreciated.

As I understand it, these regulations (found in 40 CFR 1037 and 1068) prohibit the "introduction into commerce" of glider vehicles with engines that do not meet current (or upcoming) emission standards. I am aware that there are small business exemptions from these requirements (found in 40 CFR 1037.635), but 40 CFR 1037.150(t)(1)(i) states that "[y]ou do not qualify [for this exemption] if you only produced glider vehicles for your own use."

Our client has produced a small number of glider vehicles (roughly [REDACTED] over the past 30 years) for use within his own business. He does not, to my knowledge, purchase glider kits into which he installs components, rather, he constructs them entirely out of used components (cab, engine, transmission, etc...). He does not sell the vehicles.

This precise situation does not seem to be clearly covered by any of the regulations. So my question is whether the EPA views him as a manufacturer of new glider vehicles subject to these regulations.

Thanks,

Matthew D. Cloutier.

Dear Mr. Healy,

This letter is to notify EPA that we intend to utilize the small business provisions as our company meets the small business criteria listed in 40 CFR 1037.150 c and the small business criteria specified in 13 CFR 121.201.

Ownership Structure of Freightliner of Savannah, Inc.

- E. Jason Williams 52.5%
- Joseph M. Williams 47.5%

Ownership structure of affiliate Freightliner of Augusta, LLC

- E. Jason Williams 100.00%

The total number of employees of both companies for the past three years is as follows:

- 2015 86
- 2016 90
- 2017 89

Our company has built gliders for the years 2012 through 2014 as follows:

- 2012 [REDACTED]
- 2013 [REDACTED]
- 2014 [REDACTED]

Thank you.

Sincerely,

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

Richard Wolfe Trucking, Inc

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here [Signature]

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. **Glider Vehicle Assembler** meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the **Glider Vehicle Assembler** notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year 2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here [Signature]

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to KW.Marketing.GHG@PACCAR.com. Any questions may be sent to the same address.

Subject: RE: Qualify for small business exemption

Joi,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number of links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Cathy,

Thank you for your notification letter. There are a few items you'll need to add:

- State the ownership of the company. Who owns the company and what percentage.
- State if there are any affiliations with other companies.
- The number of gliders you built each calendar year for 2010 through 2014.

Please make these additions and I will return a copy of your letter stamped "Received and Accepted" .

Please let me know if you have any questions.

Dear Mr. Healy,

Jerseyville Truck Repair, LLC is notifying you to request small business exemption status as a Glider Vehicle Assembler. JTR has employed between 2-4 employees within the past 3 years and currently has 4 full-time employees. Richard D. Darr is the sole owner of the business and has no other company affiliations. Jerseyville Truck Repair has built the following gliders between 2010- 2014:

- 2010 [REDACTED]
- 2011 [REDACTED]
- 2012 [REDACTED]
- 2013 [REDACTED]
- 2014 [REDACTED]

Thank you for your help regarding this matter and please let me know if you need any other information.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Darr", is written over a faint, larger signature.

Stephen,

This is new to me so I don't mean to ask to many questions. I did receive a form from a dealership, which had your name on it and it say print company letterhead on it. Is this the form you are requesting?

Thanks,
Joi Torello

Subject: RE: Qualify for small business exemption

Joi,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Mr. Healy,
My apologies for what ever the reasons my email didn't send to you back in January. Biehl's Truck Repair did sell gliders that they assembled to another company in 2014. Please find the attached updated letter.
Thank you,
Craig Leisure

Subject: RE: Compliance letter

Has Biehl's Truck Repair sold any of the gliders that they have assembled to another company or person? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Good morning,
Please find the attached compliance letter.
Thank you,

Biehl's Truck Repair
Robert Biehl
2730 N 200 N
biehlstruckrepair@gmail.com

This letter is to notify you of my intention to utilize the small business provisions as required by the EPA regulations by meeting the small business criteria listed in 40 CFR 1037.150 © and criteria specified in 13 CFR 121.201.

This company is owned solely, by myself, Robert Biehl, and has been since it was established in 2001.

During the years of 2010 to 2014, the following statements are true:

- 2010 – my company built [REDACTED]
- 2011 – my company built [REDACTED]
- 2012 – my company built [REDACTED]
- 2013 – my company built [REDACTED]
- 2014 – my company built [REDACTED]

Additionally:

- 2015 – my company had 3 shop employees
- 2016 – my company had 3 shop employees
- 2017 – my company had 2 shop employees
- 2014 – sold [REDACTED] that was built and assembled to another company

Please feel free to contact me should you need any further information.

Sincerely,

Robert Biehl

Hello Stephen,
Please find attached the form I was speaking of. We are not manufacturing numerous gliders we just want to be qualified to build [REDACTED] gliders next year. Thank you in advance for assisting us with this project.

Respectfully,
Joi Torello

On Mar 21, 2018, at 8:37 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Sharon,
Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Good Morning Stephen,

I have a glider assembler who needs to register for certification to assemble a small number of gliders.

I have attached his small business exemption letter and glider assembler certification.

Can you help him get set up on the right track quickly? If I can help provide you with anything, please let me know.

Thank you,

Subject: Re: Glider Small Business Exclusion Information

Attention Stephen!

On Tuesday, December 5, 2017, 10:26:47 AM EST, Healy, Stephen <healy.stephen@epa.gov> wrote:

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Nolt Carriers LLC – Glider Kit letter of Notification

I, Aaron Nolt Jr. , started my own business in 1990, at the age of 19, when I bought my first tractor-trailer truck. I started totally on my own, and still today I am the sole owner of my business. I have no affiliations with any other companies. As the years passed I hired more employees one by one. Some employees to drive truck hauling Ag commodity products, and other employees to work in our truck repairs garage. We repair our own trucks and trailers, and also do repairs for other customers. We parts out old equipment, but also fix up used trucks and sell them again. I along with my mechanic employees, put together our first glider kit in the year 2010. Between the years 2010 thru 2016 we did [REDACTED] per year. But in 2017 we fixed up and re titled a 2013 International to the year of the engine we put in it, and needed to use our glider certification in order to re title the truck. We built a few for our own company, but mostly for other customers. On Jan. 1st 2017 we did a name change to -Nolt Carriers LLC-, we kept the same address, and the same DOT number. In the year 2014 I had 5 employees, in 2015 i had 6 employees, in 2016 i had 7 employees, and this year my company has 8 employees.

If you have any questions concerning my company please give me a call at 717-278-2635, or an email to aaronnoltjr@yahoo.com .

PACCAR Glider Vehicle Assembler Certification

Enter Company Name Nystrom Trucking

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here CN

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year 2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here CN

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Hello Stephen,

We are not affiliated with any other company also after researching some paper work it appears that both trucks we built were completed in 2014. May I change the form I sent to you to indicate the new findings? One was in May of 2014 and the other was November of 2014. I'm sorry for the inconvenience.

Thanks,
Joi Torello

Subject: RE: IMG_0002.pdf

Joi,
Is SA Torello Inc affiliated with any other company? If so then you need to include the employee count from the affiliated company. If SA Torello Inc. is not affiliated with any other company then can you include a short sentence stating that.

Also the regulation limits the number of gliders that you can build to the highest number you built in any given year from 2010 through 2014, so the maximum you can build in one year now is [REDACTED]. If you need to build [REDACTED] then you will need to split that into two calendar years. You could build [REDACTED] this year and then build [REDACTED] in early 2018.

Thank you,

To: Eddie Herring <Eherring@herringmotor.com>
Subject: RE: JE Herring Motor Co Glider Kit

Eddie,

I have one question, did JE Herring Motor Company sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles

(including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

Thank you,

Stephen Healy
Mechanical Engineer

A PACCAR COMPANY

**Written Request for Shipment of Exempt Glider Kit to Glider Vehicle Assembler
with a Small Business Exemption**

Enter Company Name CHANCE 2 TRANSPORT, LTD

(hereinafter referred to as "Requestor"), pursuant to the requirements found in 40 CFR 1037.150(t)(1), is submitting this written request to Peterbilt Motors Company to build and deliver the following Peterbilt glider kit(s). Please complete the table below.

Requested Glider Kit: (use second page for more than one)

Chassis Number	Ordering Dealer	Customer Name ¹	Replacement Vehicle VIN ¹	Engine Model Year ¹	Engine Mileage ¹
	A062	CHANCE 2 TRANSPORT LTD			

Requestor will complete assembly of the glider kit(s) by installing all missing components. This could include, but not limited to, the engine, transmission, rear axle(s), and exhaust/aftertreatment components. The vehicle(s), once assembly is complete, will be exempt from the requirements of 40 CFR 1037. All engines used in glider vehicles (including remanufactured engines) must be in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Small Business Status

Requestor meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, Requestor has notified the Designated Compliance Officer of the U.S. Environmental Protection Agency (EPA) as required in 40 CFR 1037.150(t)(1)(i). Requestor certifies that a copy of the reviewed and accepted notification for this model year has been previously provided to PACCAR Inc.

Production Limits

Requestor certifies that production will not exceed the production limits of 40 CFR 1037.150(t)(1) and that it sold at least one glider vehicle in calendar 2014.

Labeling

Requestor understands that the requested glider kit will contain a Greenhouse Gas Emissions label indicating that the vehicle and its engine are exempt in accordance with §1037.150(t)(1). This label must remain affixed to the vehicle and not removed by the glider vehicle assembler.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Once received, Peterbilt will review the information to ensure accuracy. If Peterbilt determines that the requested glider kit requires the application of alternative regulations, a Peterbilt representative will contact Requestor to outline additional requirements and obtain needed information.

Requestor acknowledges that submission of this form is deemed to be a submission to EPA and California Air Recourse Board if applicable, and that Peterbilt Motors Company may provide a copy to the Agencies.

¹ Information required if requested glider is for wreck replacement. Otherwise, information is optional.

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

CHANCE 2 TRANSPORT, LTD

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

RAM**Small Manufacturer Status Certification**

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here

RAM**Record Keeping and Reporting**

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Subject: RE: TruckServ SBE

Al,
Also it looks like TruckServ is affiliated with Ursa Logistics and/or Ursa Major Corp. The employee count shows only 11 employees. This number seems rather low for a company with a corporate office and two service locations. The employee count must include the employees of affiliated companies. To qualify for the EPA small business exclusion a company must be below 1500 employees. For your reference here are links to the applicable Small Business Administration regulations;

Small Business Size Regulations:

https://www.ecfr.gov/cgi-bin/text-idx?SID=13b9be9f38a5bc1c83a4b85b7112d49f&mc=true&tpl=/ecfrbrowse/Title13/13cfr121_main_02.tpl

Calculating Number of Employees:

https://www.ecfr.gov/cgi-bin/text-idx?SID=13b9be9f38a5bc1c83a4b85b7112d49f&mc=true&node=se13.1.121_1106&rgn=div8

How Affiliation is Determined:

https://www.ecfr.gov/cgi-bin/text-idx?SID=13b9be9f38a5bc1c83a4b85b7112d49f&mc=true&node=se13.1.121_1103&rgn=div8

Joseph,

We're almost there. You indicated that all the gliders built by Paul's Repair were for customers. On the letter the "Glider Vehicle Production" information shows the number assembled in 2014 and 2013 but shows zero for sales. The sales column should reflect the number of gliders sold or the number assembled for customers. Gliders assembled for use by Paul's Repair would not count. Can you please make sure this is corrected and resend? Thank you for your patience.

Subject: RE: JE Herring Motor Co Glider Kit

Eddie,

I have one question, did JE Herring Motor Company sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

Mary Ann,

I have two questions. The number of sales listed is greater than the number of gliders assembled; is this correct. The sales column should reflect the number of assembled gliders that were sold. The number of employees seems a bit low for a company like CSM Trucks. The employment totals should reflect the total number employees for Michigan Kenworth as well as affiliated companies. Michigan Kenworth appears to be part CSM Truck which has multiple locations and the employment total should reflect this. Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below). Here are links to the regulation sections that clarify the total employment requirements for a small business:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

13 CFR Part 121

Small business general provisions: describes how to determine affiliations and determine employee count:

<http://www.ecfr.gov/cgi-bin/text-idx?SID=266ad73e48d34146461d5b3cc2a0d1ab&mc=true&node=sg13.1.121.a.sg0&rgn=div7>

Size standards for small business:

Al,
Also it looks like TruckServ is affiliated with Ursa Logistics and/or Ursa Major Corp. The employee count shows only 11 employees. This number seems rather low for a company with a corporate office and two service locations. The employee count must include the employees of affiliated companies. To qualify for the EPA small business exclusion a company must be below 1500 employees. For your reference here are links to the applicable Small Business Administration regulations;

Small Business Size Regulations:

CC: Scott Gray [scott@elitediesel.biz]
Subject: RE: Heavy Duty Truck Glider Compliance - Elite Diesel Service

Hi Stephen,

I wasn't sure how to answer that on the sheet. All of the gliders we built have been sold, but we did not broker the deals.

The end customer purchased (usually through Paccar financing) the trucks from the dealer (Peterbilt for example). So the dealers had the gliders sent to us to be built, and then the dealers would get them back, PDI them, and deliver to the customer.

So, in summary, all the gliders we built have been sold, just not directly through us. Our primary function was building and installing the engines and (drivetrain as needed).

Is this acceptable?

Thank you,
Scott

Subject: RE: Heavy Duty Truck Glider Compliance - Elite Diesel Service

Scott,

Has your company sold any of the gliders that you have assembled in 2010 – 2014? The EPA regulation for small businesses that would like to build gliders requires the business to have sold at least one glider. The regulation is 40 CFR 1037.150(t) and here is an excerpt that covers that requirement:

§1037.150 Interim provisions.

(t)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

To: Jim Bauer <Jim.Bauer@freightlinernw.com>
Subject: EPA Small Business Glider Builder Information

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

We have build gliders for people that ordered them and had them delivered to us but it wasn't a sale. We were hired to assemble them.

On Tue, May 22, 2018, 10:27 AM Healy, Stephen <healy.stephen@epa.gov> wrote:

Chris,

To qualify for the EPA small business glider regulation provisions you must have sold at least one glider to another company in 2014. The small business glider regulations are in 40 CFR 1037.150(t). Here is an excerpt from the regulation that clearly states this:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the complete regulation section if you would like to read it.

Dear Mr. Healy,

Jerseyville Truck Repair Inc. is notifying you to request small business exemption status as a Glider Vehicle Assembler. JTR has employed between 2-4 employees within the past 3 years and currently has 2 full-time employees. Richard D. Darr is the sole owner of the business and has no other company affiliations. Jerseyville Truck Repair has built the following gliders between 2010- 2014:

- 2010
- 2011
- 2012
- 2013
- 2014

Thank you for your help regarding this matter and please let me know if you need any other information.

Sincerely,

Richard Darr (Owner)

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

Terrys Truck and Trailer Repair

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [redacted] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here TG

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year 2019

A copy of this reviewed and accepted notification is attached with this request. Initial Here TG

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Re: Alban Tractor Co. Inc. - Small Business Exemption -Glider Vehicles

Dear Mr. Healy:

Please accept this as certification of the following information for Alban Tractor Co. Inc. ("Alban"):

1. Alban meets the small business criteria set forth in 40 CFR 1037.150(c) and specified in 13 CFR 121.201.
2. Alban is solely owned by James C. Alban IV. Affiliated companies are as follows:
 - a. Alban Rents is owned 99% by Alban and 1% by James C. Alban IV. All employees of Alban Rents are on the Alban payroll and in the counts in item 3, below.
 - b. Sitech, Inc. is an affiliate owned 100% by James C. Alban, IV. Sitech employees are paid through Alban and all Sitech employees are included in the count in item 3, below.
3. Currently, Alban has 748 employees. Total numbers for prior years were 765 for 2016, 731 for 2015, and 690 for 2014.
4. The first year Alban built gliders was 2014 and that year a total of [REDACTED] built.

Please contact me at 443-243-3805 if you need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Brent Poulton", written in a cursive style.

Sent: Tuesday, February 27, 2018 2:39 PM
To: Eddie Herring <Eherring@herringmotor.com>
Subject: RE: JE Herring Motor Co Glider Kit

Eddie,

I have one question, did JE Herring Motor Company sell a glider in 2014? To qualify for the EPA small business glider exemption the small business must have built gliders in the 2010 through 2014 timeframe and sold at least one glider in 2014. Here is an excerpt from the regulations that details these requirements:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Please let me know if you have any questions.

Thank you,

Steven; Freightliner has verbiage that says you can not assemble a glider for your own use . In the case of Mr Collins he has a vehicle service company that he owns putting the Vehicle together. But he owns both companies . In our conversation this morning you said it really didn't say that you couldn't be the user also . Just that he had sold one in the past and number assembled . Please send what you have on that . I will pass it on to clarify Thank Harry Powers

Re: Model Year 2019/Calendar Year 2018 Request for Small Business Exemption as a Glider Vehicle Assembler Pursuant to 40 C.F.R. § 1037.150(c) and (t)

Pursuant to C.F.R. § 1037.150, Thompson Machinery Commerce Corporation ("Thompson") hereby gives notice of its plans to utilize the small business exemption under 40 C.F.R. § 1037.150(t) for model year 2019/calendar year 2018.

Thompson certifies that it qualifies as a small business per 13 C.F.R. § 121.201 and is classified as Heavy Duty Truck Manufacturing NAICS Code 336120 Subsector 336 – Transportation Equipment Manufacturing because Thompson, including its related entities, has fewer than 1,500 employees. Thompson employment figures for the years ended December 31, 2014, 2015 and 2016 along with 2017 (as of the date of this letter) are set forth below.

Employees

Year	Quantity
2014	458
2015	525
2016	550
2017	646

Thompson's annual U.S.-directed production volume and sales of glider vehicles for calendar years 2010 through 2014 are set forth below.

Glider Vehicle Production

Year	Assembled	Sales (if different)
2014		
2013		

2012			
2011			
2010			

Based on the information provided above, our maximum annual exempt glider vehicle production for this model year is 2019/calendar year 2018 is 146.

Please confirm that this request is acceptable and that Thompson has met all the requirements for the small business exemption as a glider vehicle assembler pursuant to 40 C.F.R. § 1037.150(t)(1) .

Thank you for your assistance.

Peterbilt Truck Parts & Equipment

A PACCAR COMPANY

Written Request for Shipment of Exempt Glider Kit to Glider Vehicle Assembler with a Small Business Exemption

Enter Company Name

BAR-S-BAR RANCHES

(hereinafter referred to as "Requestor"), pursuant to the requirements found in 40 CFR 1037.150(t)(1), is submitting this written request to Peterbilt Motors Company to build and deliver the following Peterbilt glider kit(s). Please complete the table below.

Requested Glider Kit: (use second page for more than one)

Chassis Number	Ordering Dealer	Customer Name ¹	Replacement Vehicle VIN ¹	Engine Model Year ¹	Engine Mileage ¹

Requestor will complete assembly of the glider kit(s) by installing all missing components. This could include, but not limited to, the engine, transmission, rear axle(s), and exhaust/aftertreatment components. The vehicle(s), once assembly is complete, will be exempt from the requirements of 40 CFR 1037. All engines used in glider vehicles (including remanufactured engines) must be in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Small Business Status

Requestor meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, Requestor has notified the Designated Compliance Officer of the U.S. Environmental Protection Agency (EPA) as required in 40 CFR 1037.150(t)(1)(i). Requestor certifies that a copy of the reviewed and accepted notification for this model year has been previously provided to PACCAR Inc.

Production Limits

Requestor certifies that production will not exceed the production limits of 40 CFR 1037.150(t)(1) and that it sold at least one glider vehicle in calendar 2014.

Labeling

Requestor understands that the requested glider kit will contain a Greenhouse Gas Emissions label indicating that the vehicle and its engine are exempt in accordance with §1037.150(t)(1). This label must remain affixed to the vehicle and not removed by the glider vehicle assembler.

Instructions: E-mail the completed and signed form to PB_GHG_Sales_Plan_Management@PACCAR.com. Once received, Peterbilt will review the information to ensure accuracy. If Peterbilt determines that the requested glider kit requires the application of alternative regulations, a Peterbilt representative will contact Requestor to outline additional requirements and obtain needed information.

Requestor acknowledges that submission of this form is deemed to be a submission to EPA and California Air Recourse Board if applicable, and that Peterbilt Motors Company may provide a copy to the Agencies.

Address / E-mail / Phone if not printed on company letterhead:

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

BAR-S-BAR RANCHES

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

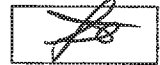

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to PB.GHG.Sales.Plan.Management@PACCAR.com. Any questions may be sent to the same address.

Initials: CS	Date: 11/15/17
---------------------	-----------------------

¹ Information required if requested glider is for wreck replacement. Otherwise, information is optional.

A PACCAR COMPANY

**Written Request for Shipment of Exempt Glider Kit to Glider Vehicle Assembler
with a Small Business Exemption**

Enter Company Name

Sturm Hay Company LLC

(hereinafter referred to as "Requestor"), pursuant to the requirements found in 40 CFR 1037.150(t)(1), is submitting this written request to Peterbilt Motors Company to build and deliver the following Peterbilt glider kit(s). Please complete the table below.

Requested Glider Kit: (use second page for more than one)

Chassis Number	Ordering Dealer	Customer Name ¹	Replacement Vehicle VIN ¹	Engine Model Year ¹	Engine Mileage ¹

Requestor will complete assembly of the glider kit(s) by installing all missing components. This could include, but not limited to, the engine, transmission, rear axle(s), and exhaust/aftertreatment components. The vehicle(s), once assembly is complete, will be exempt from the requirements of 40 CFR 1037. All engines used in glider vehicles (including remanufactured engines) must be in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Small Business Status

Requestor meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, Requestor has notified the Designated Compliance Officer of the U.S. Environmental Protection Agency (EPA) as required in 40 CFR 1037.150(t)(1)(i). Requestor certifies that a copy of the reviewed and accepted notification for this model year has been previously provided to PACCAR Inc.

Production Limits

Requestor certifies that production will not exceed the production limits of 40 CFR 1037.150(t)(1) and that it sold at least one glider vehicle in calendar 2014.

Labeling

Requestor understands that the requested glider kit will contain a Greenhouse Gas Emissions label indicating that the vehicle and its engine are exempt in accordance with §1037.150(t)(1). This label must remain affixed to the vehicle and not removed by the glider vehicle assembler.

Instructions: E-mail the completed and signed form to PB_GHG_Sales_Plan_Management@PACCAR.com. Once received, Peterbilt will review the information to ensure accuracy. If Peterbilt determines that the requested glider kit requires the application of alternative regulations, a Peterbilt representative will contact Requestor to outline additional requirements and obtain needed information.

Requestor acknowledges that submission of this form is deemed to be a submission to EPA and California Air Recourse Board if applicable, and that Peterbilt Motors Company may provide a copy to the Agencies.

PACCAR Glider Vehicle Assembler Certification**Enter Company Name**

Sturm Hay Company LLC

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

CS

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. **Glider Vehicle Assembler** meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the **Glider Vehicle Assembler** notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here

PACCAR Glider Vehicle Assembler Certification

Enter Company Name Paul's Repair
 (hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume 4 in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here PM

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year 2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here PM

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to KW.Marketing_GHG@PACCAR.com. Any questions may be sent to the same address.

Thanks. do I need our company name on it and also is the date of manufacture needed?

On 12/11/2017 10:58 AM, Healy, Stephen wrote:

Alan,
The label requirement currently for a glider is found in the regulation section below:

§1037.150 Interim provisions.

(t)(1)(iv) Include the appropriate statement on the label required under §1037.135, as follows:

(A) For Phase 1 vehicles, "THIS VEHICLE AND ITS ENGINE ARE EXEMPT UNDER 40 CFR 1037.150(t)(1)."

Please let me know if you have further questions.

Thank you,

Stephen

Yes, we did do gliders in 2014. I have fixed the assembler paper. Sorry for the inconvenience.

Thank You

Robert Huisman

On Tue, May 1, 2018 at 1:08 PM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Robert,

Did Huisman Trucking sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Stephen Healy

Subject: RE: Ra-Ly Transport LLC / Glider request

Lance,

Has Ra-Ly Transport LLC sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=dd999ef3d73beaa8f97f8c57bf98efa1&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

Subject: EPA Glider Allowances For Small Business

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Stephen,

Good morning, I have attached the small business exemption letter from for Sorensen Truck & Equipment Repair for your approval in order to complete a Peterbilt Glider Kit year model 2019. They do not use letter head so they hand wrote their information at the bottom of the page. I have also scanned a copy of their business card for you. Currently they are Certified to complete Gliders for another OEM and we have requests for them to do our Peterbilts as well.

Please let me know if there is anything else I need to do.

Subject: RE: Olmsted Assembler Paperwork

Good morning Joe,

The first form – the Request for Small Business Exemption – needs to go to Stephen Healy at EPA. It should also show model year 2019 (calendar year 2018). Mr. Healy will sign it and return it, usually quickly. Then forward it to me. Once I get that I'll assign the assembler number. The Certification form is fine; I'll hold it until I get the Exemption.

Please let me know if you have any questions.

PACCAR Glider Vehicle Assembler Certification

Enter Company Name

TNT Truck Repair

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [redacted] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

TG

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here

Record Keeping and Reporting

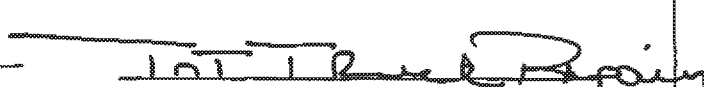

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to KW.Marketing.GHG@PACCAR.com. Any questions may be sent to the same address.

**Written Request for Shipment of Exempt Glider Kit to Glider Vehicle Assembler
with a Small Business Exemption**

Enter Company Name

TNT Truck Repair

(hereinafter referred to as "Requestor"), pursuant to the requirements found in 40 CFR 1037.150(t)(1), is submitting this written request to Kenworth Truck Company to build and deliver the following Kenworth glider kit(s). Please complete the table below.

Requested Glider Kit: (use second page for more than one)

Chassis Number	Ordering Dealer	Customer Name ¹	Replacement Vehicle VIN ¹	Engine Model Year ¹	Engine Mileage ¹

Requestor will complete assembly of the glider kit(s) by installing all missing components. This could include, but not limited to, the engine, transmission, rear axle(s), and exhaust/aftertreatment components. The vehicle(s), once assembly is complete, will be exempt from the requirements of 40 CFR 1037. All engines used in glider vehicles (including remanufactured engines) must be in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Small Business Status

Requestor meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, Requestor has notified the Designated Compliance Officer of the U.S. Environmental Protection Agency (EPA) as required in 40 CFR 1037.150(t)(1)(i). Requestor certifies that a copy of the reviewed and accepted notification for this model year has been previously provided to PACCAR Inc.

Production Limits

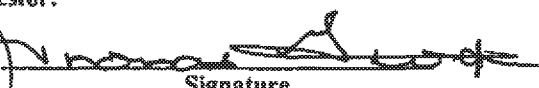

Requestor certifies that production will not exceed the production limits of 40 CFR 1037.150(t)(1) and that it sold at least one glider vehicle in calendar 2014.

Labeling

Requestor understands that the requested glider kit will contain a Greenhouse Gas Emissions label indicating that the vehicle and its engine are exempt in accordance with §1037.150(t)(1). This label must remain affixed to the vehicle and not removed by the glider vehicle assembler.

Instructions: E-mail the completed and signed form to KW.Marketine.GHG@PACCAR.com. Once received, Kenworth will review the information to ensure accuracy. If Kenworth determines that the requested glider kit requires the use of alternative regulations, a Kenworth representative will contact Requestor to outline additional requirements and obtain needed information.

Requestor acknowledges that submission of this form is deemed to be a submission to EPA and California Air Recourse Board if applicable, and that Kenworth Truck Company may provide a copy to the Agencies.

Subject: RE: Glider kit letter

Bret,
Has Tom Nehl Truck Company sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles.

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=dd999ef3d73beaa8f97f8c57bf98efa1&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

PACCAR Glider Vehicle Assembler Certification

Enter Company Name FANNIN TRUCK REPAIR
 (hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 **2014**

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here DF

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year 2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here DF

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to [REDACTED] may be sent to the same address.

Any questions

Q: What is needed to apply for the Small Business Exemption Certification?

A: The glider assembler should contact their EPA Designated Compliance Officer to determine exact requirements for the exemption. The list below is the type of information that may be needed. Please consult your attorney should you have any questions about the interpretation and application of the regulation.

- State that the glider assembler qualifies as a small business per 13 CFR §121
 - o The glider assembler is classified as Heavy Duty Truck Manufacturing NAICS Code 336120 Subsector 336 - Transportation Equipment Manufacturing Per 13 CFR §121.201.
- Provide the current number of employees.
 - o In order to qualify, total must be below 1,500 employees. *10*
- Provide the number of employees for the past three years. *10 each yr.*
- Annual U.S. production volume (and sales, if different) for calendar years 2010 through 2014. [REDACTED]
- o Sales include vehicles they were paid to assemble for others. ~~\$45~~ [REDACTED]
- Describe the ownership structure.
 - o Who owns the company and percent ownership. *Darrel Fannin 100%*
- The model year that exclusion request applies.
- Signed by a company official.
- Please note that you must request this exclusion every calendar year.
- The contact at EPA is:

PACCAR Glider Vehicle Assembler Certification

K&R Transport II, LLC

Enter Company Name

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year

2019

A copy of this reviewed and accepted notification is attached with this request. Initial Here

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

August 7, 2017

Dear Sirs;

This letter is sent to you because we intend to utilize the small business provisions. This is to state that my company, Star Auto Co, meets the small business criteria as required. We currently have 13 employees and have had for the past 3 years. The company is owned by myself and my wire, Ruth. We each own 50%. There are no other affiliations with other companies.

In the past we have built the following number of gliders:

2010
2011
2012
2013
2014

If there are any questions, please call 641-594-2757. Ask for Marlo Jansen, owner.

Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [REDACTED] in 1993, [REDACTED] in 1997, [REDACTED] in 2001, [REDACTED] in 2007, [REDACTED] in 2009, [REDACTED] in 2010-2011.

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

[REDACTED] sold to Dairyway Tremonton, UT 2012

[REDACTED] sold to Roy's Truck Rowlett, TX 2013

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2014

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2015

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2016

████ sold to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks

Sharon Lancaster

A&R Transport, Inc.

On 3/22/2018 7:47:05 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Sharon,

The regulations require that A&R have sold at least one glider to an unrelated entity in 2014. The letter shows that no gliders were built in the 2011 through 2014 timeframe. Also AA&S Corporation appears to be an affiliate of A&R Transport as they share the same business address. What brand of gliders is A&R intending to build – PACCAR (Peterbilt and Kenworth) or Daimler (Freightliner or Western Star)?

Thank you,

Steve Healy

Sharon,

Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small

business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the

Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [REDACTED] in 1993, [REDACTED] in 1997, [REDACTED] in 2001, [REDACTED] in 2007, [REDACTED] in 2009, [REDACTED] in 2010-2011.

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

- [REDACTED] sold to Dairyway Tremonton, UT 2012
- [REDACTED] sold to Roy's Truck Rowlett, TX 2013
- [REDACTED] sold to Bouma Truck Sales, Choteau, MT 2014
- [REDACTED] sold to Bouma Truck Sales, Choteau, MT 2015
- [REDACTED] sold to Bouma Truck Sales, Choteau, MT 2016
- [REDACTED] sold to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks

Sharon,

Did A&R Transport Repair sell any of the gliders that they have assembled to another company or person in 2014? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party in 2014. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Shane,

The information you provided looks good, but I have one change to request for both letters. The important part of both submissions for me is the letter on page 2. On that letter can you please add the applicable company name, address and contact information. The page 2 letter will be a standalone document for EPA and needs the correct company name and contact information listed.

Please let me know if you have any questions.

Thank you,

Scott,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).
- Should be on company letterhead if possible.
- Include company address and contact information.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: RE: EPA Small Business Exemption

Mr Shirley,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that their company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty

Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that their company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the total number of employees (including affiliates – see 13 CFR 121 for details) for each of the past 3 years.
- State the number of gliders that the company has built each year 2010 through 2014.
- Signed by the owner(s).

They should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to them.

For your reference here are a number links to regulations that are applicable:

Subject: EPA Small Business Exemption

Dear Mr. Healy,

I understand that you are the EPA designated compliance officer for glider kits. Since High Country Motors, LLC (HCM) is a glider assembler, I'm contacting you to determine the exact requirements for the Small Business Exemption that we will need to do so that we can get the EPA approved exemption document.

I look forward to hearing back from you.

Thank You,

Samuel R. Shirley

This letter is to certify that Westlie Motor Company, dba Westlie Truck Center is eligible to assemble glider kits and meets the requirements of 13 CFR 121.201 and 40 CFR 1037.150 (c). Below is the information you require.

Total employees for the past 3 years are as follows:

2015	158 employees
2016	157 employees
2017	158 162 employees

The company is owned by 6 stockholders as follows:

Steven Blasing	45.3%
James Westlie	29.2%
Mary Ellen Westlie	11.2%
Todd Westlie	3.8%
Mark Westlie	3.8%
Tiffany Pondelik	6.7%

We have built a total of 5 gliders in the years 2010 through 2014 as follows:

2010	
2011	
2012	
2013	
2014	

If you need further information, please do not hesitate to contact me or Darek Zaun, CFO at the contact information shown above in the letterhead.

Thank you,

Steve Blasing, President

Scott,

I received a letter from Aviant Truck Centers in early January. I responded on January 9th to Al Denning of PACCAR with a notation that the letter was updated for 2019 model year. I have attached a copy. I don't believe Al sent you a copy.

Subject: RE: Truck Centers, Inc. EPA Certification

Mr Yates,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Ryan,
Basically you just need to update the previous letter you submitted. You can update employee counts, ownership changes. That's about it. You might want to check with your dealer as to what model rear trucks you can order next and include that in the letter. Please let me know if you have any further questions.

Thank you,

This letter is to serve notice to the designated compliance officer of the U.S EPA on January 04, 2018. The letter notes that AM Towing Inc. meets the small manufacturer status certification criteria found in 40 CFR 1037.150© and found in 13 CFR 121.201 for small business glider vehicle assembler.

Per requirements AM Towing Inc. employed 20 employees in the 2013, 2014, & 2015 calendar years. For the 2016 calendar year AM Towing Inc. employed 22 employees and in 2017 AM Towing Inc. employed 24 employees.

AM Towing Inc. is owned solely by Ryan Schueller and consists of AM Towing and AM Repair. Ryan Schueller is a 50% owner in CDRS LLC which is a limited liability corporation that holds two notes on properties. The other 50% is held by Carly Schueller. CDRS LLC has no employees.

AM Towing Inc. produced in 2014 its maximum build of [REDACTED] other kits were produced or Sold in 2010 – 2013.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Schueller', is written over a white background.

Ryan Schueller
AM Towing Inc.

Subject: RE: Compliance

I responded with a question on January 25th and have not received a response:

Has Biehl's Truck Repair sold any of the gliders that they have assembled to another company or person? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. The letter does not indicate if any gliders have been sold. Please see the excerpt from the regulation below

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Subject: RE: EPA Small Business Exemption

Mr Shirley,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that their company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that their company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the total number of employees (including affiliates – see 13 CFR 121 for details) for each of the past 3 years.
- State the number of gliders that the company has built each year 2010 through 2014.
- Signed by the owner(s).

They should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to them.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: RE: EPA Small Business Exemption

Mr Shirley,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that their company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that their company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the total number of employees (including affiliates - see 13 CFR 121 for details) for each of the past 3 years.
- State the number of gliders that the company has built each year 2010 through 2014.
- Signed by the owner(s).

They should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to them.

Subject: RE: Heavy Duty Truck Glider Compliance - Elite Diesel Service

Scott,

Has your company sold any of the gliders that you have assembled in 2010 - 2014? The EPA regulation for small businesses that would like to build gliders requires the business to have sold at least one glider. The regulation is 40 CFR 1037.150(t) and here is an excerpt that covers that requirement:

§1037.150 Interim provisions.

(t)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Subject: RE: Request to be a Small business glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [REDACTED] in 1993, [REDACTED] in 1997, [REDACTED] in 2001, [REDACTED] in 2007, [REDACTED] 2009 model year [REDACTED] in 2009, [REDACTED] 2011 model year [REDACTED] in 2010-2011.

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

[REDACTED] sold to Dairyway Tremonton, UT 2012

[REDACTED] sold to Roy's Truck Rowlett, TX 2013

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2014

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2015

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2016

[REDACTED] sold to Bouma Truck Sales, Choteau, MT 2017

We are currently working on bids from Peterbilt and Kenworth in Salt Lake City, UT.

Thanks

Sharon Lancaster

On 3/22/2018 7:47:05 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Sharon,

The regulations require that A&R have sold at least one glider to an unrelated entity in 2014. The letter shows that no gliders were built in the 2011 through 2014 timeframe. Also AA&S Corporation appears to be an affiliate of A&R Transport as they share the same business address. What brand of gliders is A&R intending to build – PACCAR (Peterbilt and Kenworth) or Daimler (Freightliner or Western Star)?

Thank you,

Steve Healy

Justin,
Your contact at Peterbilt is not correct. EPA does not issue a builder number. I believe PACCAR will issue you a builder number based on the EPA reviewed letter I sent back to you. You can have your Peterbilt contact give me a call and I can discuss this with them. You are the first person to ask me for a builder number.

Scott,

The intent of the regulation is that you are building gliders for customers and not your own use, so I believe you meet the intent of the regulation. Could you please edit your notification letter to remove the zeros from the table under the number of gliders you have sold. Please send the updated letter to me and will stamp it "Reviewed and Accepted". You can then provide a copy to PACCAR or Freightliner as needed.

Thank you,

Subject: RE: Heavy Duty Truck Glider Compliance - Elite Diesel Service

Hi Stephen,

I wasn't sure how to answer that on the sheet. All of the gliders we built have been sold, but we did not broker the deals.

The end customer purchased (usually through Paccar financing) the trucks from the dealer (Peterbilt for example). So the dealers had the gliders sent to us to be built, and then the dealers would get them back, PDI them, and deliver to the customer.

So, in summary, all the gliders we built have been sold, just not directly through us. Our primary function was building and installing the engines and (drivetrain as needed).

Is this acceptable?

Thank you,
Scott

RECEIVED

DATE: 7/19/18

Dear Mr. Healy,

Per Daimler Truck North America (DTNA) 2019 Glider Kit purchase guidelines, PENN Power Group, LLC (PPG) respectfully declares eligibility to assemble 'glider kits' and introduce glider vehicles into commerce IAW EPA standards. I attest to the following information:

- PPG and its two wholly-owned subsidiaries have 523 employees and therefore it meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201 referencing NAICS Code 336120
- PPG is owned by PDDA Holdings, LLC, its sole member, and is consolidated for tax purposes with ESCP PPG Holdings, Inc. The company is owned by management and private investors.
- PPG has two wholly-owned operating subsidiaries connected with its Power & Industrial business: n2 Integrated Energy Solutions, LLC and Sigma Six Solutions, Inc.
- Number of employees for past 3 years:
 - 2018 - 523
 - 2017 - 513
 - 2016 - 550
- Number of Gliders built by PPG:
 - 2011 [REDACTED]
 - 2012 [REDACTED]
 - 2013 [REDACTED]
 - 2014 [REDACTED]

Please contact Steve Lewis, Executive Vice President of Branch Operations at slewis@pennpowergroup.com or 215-335-0500 for additional information.

Sincerely,

Al Clark
Chief Executive Officer

Subject: RE: ARCADIA TRUCK REPAIR Small Business Exemption for Gliders

Mary Ann,

Has Arcadia Truck Repair sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. The letter indicates that they have not sold any gliders. Please see the excerpt from the regulation below. Also I cannot find any previous small business notification from Arcadia Truck Repair – when would that notification have been sent to me?

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles.

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Thank you,

Stephen Healy

Subject: RE: Heavy Duty Truck Glider Compliance - Elite Diesel Service

Scott,
The intent of the regulation is that you are building gliders for customers and not your own use, so I believe you meet the intent of the regulation. Could you please edit your notification letter to remove the zeros from the table under the number of gliders you have sold. Please send the updated letter to me and will stamp it "Reviewed and Accepted". You can then provide a copy to PACCAR or Freightliner as needed.

Thank you,

Subject: RE: Heavy Duty Truck Glider Compliance - Elite Diesel Service

Hi Stephen,

I wasn't sure how to answer that on the sheet. All of the gliders we built have been sold, but we did not broker the deals.

The end customer purchased (usually through Paccar financing) the trucks from the dealer (Peterbilt for example). So the dealers had the gliders sent to us to be built, and then the dealers would get them back, PDI them, and deliver to the customer.

So, in summary, all the gliders we built have been sold, just not directly through us. Our primary function was building and installing the engines and (drivetrain as needed).

Is this acceptable?

Thank you,
Scott

Subject: RE: Heavy Duty Truck Glider Compliance - Elite Diesel Service

Scott,

Has your company sold any of the gliders that you have assembled in 2010 - 2014? The EPA regulation for small businesses that would like to build gliders requires the business to have sold at least one glider. The regulation is 40 CFR 1037.150(t) and here is an excerpt that covers that requirement:

§1037.150 Interim provisions.

(t)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Subject: RE: Small Business Exemption for Glider Assembly

Joshua,

What year did you build that glider? Also did you sell a glider in 2014? The reason I ask this is the EPA small business glider builder exemption regulations list several requirements to qualify for the exemption. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and must have sold at least one to another company or person in 2014. Here is an excerpt from the regulation:

§1037.150 Interim provisions

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the Code of Federal Regulations section for the small business glider builder exemption (40 CFR 1037.150(t):

To: Joshua D. Skidmore <josh@skidmoretransportation.com>
Subject: RE: Small Business Exemption for Glider Assembly

Josh,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Mr. Healy,

I am writing you about obtaining the Small Business Exclusion for Glider Kits and Glider Vehicles. Our company meets the small business criteria listed in 40CFR 1037.150 (e) and the small business criteria specified in 13 CFR121.201. We currently have 33 employees which includes all of our affiliate companies. In 2015 we had 24 employees, 2016 was 23 employees and in 2017 we had 32 employees. I am the sole owner of the company and have been since it started. I/We have an affiliation with Skidmore Transportation Services and we are the repair facility for them and other trucking companies. Our company built [REDACTED] (Peterbilt) between 2010 and 2014 and sold [REDACTED] in 2014.

Sincerely,

Dear Mr. Healy,

This letter is to notify the EPA that we intend to utilize the small business provisions as our company meets the small business criteria listed in 40 CFR 1034.150 (c) and the small business criteria specified in 13 CFR 121.201. for the calendar year 2019.

Ownership Structure as follows: Freightliner of Grand Rapids, Inc.

- G. Scott Rawlings – 47.9%
- Roger VerLee Family Trust – 20.59%
- Roschelle Rawlings – 4.85%
- Ryan Rawlings – 4.85%
- Ross Rawlings – 4.85%
- Ryley Rawlings – 4.85%
- Robyn Littlepage – 4.85%
- Roger Littlepage – 4.85%
- Keith Littlepage – 2.41%

Affiliates: As follows: Freightliner of Kalamazoo, Inc.

- G. Scott Rawlings – 47.9%
- Roger VerLee Family Trust – 20.59%
- Roschelle Rawlings – 4.85%
- Ryan Rawlings – 4.85%
- Ross Rawlings – 4.85%
- Ryley Rawlings – 4.85%
- Robyn Littlepage – 4.85%
- Roger Littlepage – 4.85%
- Keith Littlepage – 2.41%

The total number of employees (including affiliates) for the past three (3) years as follows:

- 2016 131
- 2017 127
- 2018 127

Our company has built Gliders for the years 2010 thru 2014 as follows:

- 2010
- 2011
- 2012
- 2013
- 2014

Sincerely,

G. Scott Rawlings

Subject: RE: Request for Small Business Exemption as a Gilder Assembler

Scott,

Have you sold any of the gliders that you have built? The letter that you sent indicates that you have not sold any gliders. To qualify for the small business exemption the regulations require that you've sold at least one glider. The regulation is 40 CFR 1037.150(t)(i). Here is the excerpt below:

§1037.150 Interim provisions.

(t)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Thank you,

Subject: RE: GLIDER ASSEMBLER REQUEST

Mary Ann,

I have two questions. The number of sales listed is greater than the number of gliders assembled; is this correct. The sales column should reflect the number of assembled gliders that were sold. The number of employees seems a bit low for a company like CSM Trucks. The employment totals should reflect the total number employees for Michigan Kenworth as well as affiliated companies. Michigan Kenworth appears to be part CSM Truck which has multiple locations and the employment total should reflect this. Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below). Here are links to the regulation sections that clarify the total employment requirements for a small business:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

13 CFR Part 121

Small business general provisions: describes how to determine affiliations and determine employee count:

<http://www.ecfr.gov/cgi-bin/text-idx?SID=266ad73e48d34146461d5b3cc2a0d1ab&mc=true&node=sg13.1.121.a.sg0&rgn=div7>

Size standards for small business:

http://www.ecfr.gov/cgi-bin/text-idx?SID=266ad73e48d34146461d5b3cc2a0d1ab&mc=true&node=se13.1.121_1201&rgn=div8

Subject: Re: Request for Small Business Exemption as a Gilder Assembler

Stephen,

We have not sold any gliders. We are a public trucking service garage and all the gliders that we have assembled in the past our customers have bought from a dealer and had delivered to us and we have done all the work tearing apart the donor trucks and assembling the glider. So are you telling me that we don't qualify and can no longer build gliders? Our Kenworth salesman is telling us that we need this exemption to get our assembler number for the upcoming year. We got an assembler number last year but he says we need to get a new one every year.

Let me know,
Scott

Sent: 5/1/2018 6:08:04 PM
To: Robert Huisman [rhuisman1961@gmail.com]
Subject: RE: Model year 2018 request for small business exemption as a glider vehicle assembler

Robert,

Did Huisman Trucking sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

PACCAR Glider Vehicle Assembler Certification

Enter Company Name City Line Truck + Trailer Repair Inc
 (hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One 2010 2011 2012 2013 2014

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here DM

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year: Enter Model Year 2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here DM

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and
- (4) Exceeding vehicle volume limitations per 40 CFR 1037.150(t)(1) and not complying with 1037.635.

Instructions: E-mail the completed and signed form to [REDACTED]. Any questions may be sent to the same address.

PACCAR Glider Vehicle Assembler Certification

Enter Company Name 3D'S Missoula, INC

(hereinafter referred to as "Glider Vehicle Assembler") certifies to PACCAR, Inc the information requested herein to assure compliance with 40 CFR 1037.635 and 1037.150 with respect to glider vehicles produced on or after January 1, 2018 from glider kits purchased from PACCAR Inc's Kenworth and Peterbilt divisions.

Glider Vehicle Assembler will complete the assembly of all designated glider kits provided by a division of PACCAR, Inc by installing all missing components to complete the assembly of the glider vehicle. This could include, but would not be limited to, the engine, transmission, rear axle(s), and exhaust components.

Glider Vehicle Assembler certifies that each engine (including remanufactured engines) installed in a completed glider vehicle utilizing a designated glider kit will be installed in a certified configuration and properly labeled for the original engine model year in accordance with 40 CFR 1037.635(d).

Volume Limitations Certification

Pursuant to 40 CFR 1037.150(t)(1), for calendar year 2018 through calendar year 2020, you may produce a limited number of exempt glider vehicles. The limit applies to the quantity of your combined yearly production of vehicles from all vehicle OEM glider kits, and is equal to your highest annual production of glider vehicles in any calendar year between 2010 to 2014, up to a maximum of 300. Glider vehicles you produce in excess of this limit must comply with 40 CFR 1037.635, which includes delegated assembly, and requires the engine installed to be a post-2010 emissions engine.

Glider Vehicle Assembler certifies that its highest annual production of glider vehicles between 2010 through 2014 for sale or use in the United States was: Enter Volume [REDACTED] in Year Circle One **2010 2011 2012 2013 2014**

Glider Vehicle Assembler certifies that it sold at least one glider vehicle in calendar year 2014. Initial Here [Signature]

Small Manufacturer Status Certification

Glider Vehicle Assembler certifies that it will be producing/assembling the requested exempt glider kits for sale or use in the United States. Glider Vehicle Assembler meets the criteria referenced in 40 CFR 1037.150(c) and found in 13 CFR 121.201 for a small business. As such, the Glider Vehicle Assembler notified the Designated Compliance Officer of the U.S. EPA of its small business status for vehicle model year. Enter Model Year 2018

A copy of this reviewed and accepted notification is attached with this request. Initial Here [Signature]

Record Keeping and Reporting

Glider Vehicle Assembler will be responsible for maintaining records of all glider vehicles they produce/assemble beginning in calendar year 2017. U.S. EPA may require reporting 2010 through 2014 volumes as well as current year produced/assembled glider vehicle volume as an end-of-year report.

Compliance Requirements

Vehicle Assembler acknowledges its understanding that the following are all violations of the Clean Air Act under 40 CFR 1068.101 and/or 1068.105, and subject to EPA enforcement and penalties outlined in §1068.101(b)(1):

- (1) Introducing vehicles into commerce in an uncertified configuration;
- (2) Failure to follow OEM instructions or otherwise make unauthorized changes;
- (3) Failure to keep records, send reports, or give EPA information as required under this part or the Clean Air Act; and

Mary Ann,

I have two questions. The number of sales listed is greater than the number of gliders assembled; is this correct. The sales column should reflect the number of assembled gliders that were sold. The number of employees seems a bit low for a company like CSM Trucks. The employment totals should reflect the total number employees for Michigan Kenworth as well as affiliated companies. Michigan Kenworth appears to be part CSM Truck which has multiple locations and the employment total should reflect this. Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees

includes that of the company and its affiliates (see 13 CFR 121 link below). Here are links to the regulation sections that clarify the total employment requirements for a small business:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

13 CFR Part 121

Small business general provisions: describes how to determine affiliations and determine employee count:

Stephen,

Yes that is correct. We would prefer to continue letting our customers purchase the truck and us doing the assembly work if that is possible. If that is not possible then we will purchase the truck and build them and sell them to our customers.

Scott

Subject: Re: Request for Small Business Exemption as a Gilder Assembler

Stephen,

We have not sold any gliders. We are a public trucking service garage and all the gliders that we have assembled in the past our customers have bought from a dealer and had delivered to us and we have done all the work tearing apart the donor trucks and assembling the glider. So are you telling me that we don't qualify and can no longer build gliders? Our Kenworth salesman is telling us that we need this exemption to get our assembler number for the upcoming year. We got an assembler number last year but he says we need to get a new one every year.

Let me know,

Scott

Subject: RE: Glider Vehicle Assembler

Did John P Halliday Trucking Inc sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Subject: RE: DTNA Glider Request letter

Joe,
Your letter indicates that River States Truck and Trailer built [REDACTED] in December of 2013. When [REDACTED] the [REDACTED] sold? The reason I ask that question is that the regulations require that the small business must have sold at least one glider in 2014. Also you will be limited to building one glider per year based on the your letter stating that you have only built one glider in the 2010 -2014 time frame. Here is an excerpt from the regulations (40 CFR 1037.150(t)) stating these requirements:

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles. (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Also here is a link to the applicable regulations:

Subject: RE: EPA Calendar Year 2019 Small Business Exemption

Mr. Healy --

My apologies on the delay in responding. I was not aware that Brian had previously filed this under the Harrison Corporation. I researched the numbers to find a few key takeaways:

- The glider production numbers in section 1 are separate. Westman Freightliner was acquired in 2015 and accordingly, the production numbers are separate from Harrison Truck Centers as they produced gliders prior to the acquisition.
- The employee numbers in section 2 are combined. As you may notice on the 2019 notifications, the "current -- 3" is substantially different than "current -- 2" and accordingly, the employment numbers on my most recent request is a combined number.

Let me know if you have additional questions.

Thanks,

Dustin C. Petersen

Stephen,

The letter I was discussing with you will be submitted by Hagerman Inc. They have assembled gliders for us for years. If possible, please expedite the stamp required so that I can forward this to Freightliner.

Thank you so very much for your help yesterday. It was nice to speak to the right person that KNOWS what is required.

Have a great day,

Jim Bauer

Subject: EPA Small Business Glider Builder Information

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Subject: Re: Request for Small Business Exemption as a Gilder Assembler

Stephen,

Yes that is correct. We would prefer to continue letting our customers purchase the truck and us doing the assembly work if that is possible. If that is not possible then we will purchase the truck and build them and sell them to our customers.

Scott

On Wed, Oct 25, 2017 at 3:37 PM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Scott,

In 2010 through 2014 all the gliders you assembled were purchased by your customer and you provided the assembly service. Is this correct? Are you intending to purchase gliders then build them and sell the finished truck?

Subject: Re: Request for Small Business Exemption as a Gilder Assembler

Stephen,

We have not sold any gliders. We are a public trucking service garage and all the gliders that we have assembled in the past our customers have bought from a dealer and had delivered to us and we have done all the work tearing apart the donor trucks and assembling the glider. So are you telling me that we don't qualify and can no longer build gliders? Our Kenworth salesman is telling us that we need this exemption to get our assembler number for the upcoming year. We got an assembler number last year but he says we need to get a new one every year.

Let me know,

Scott

Subject: RE: DTNA Glider Request letter

Joe,
Your letter indicates that River States Truck and Trailer built [REDACTED] in December of 2013. When [REDACTED] sold? The reason I ask that question is that the regulations require that the small business must have sold at least one glider in 2014. Also you will be limited to building [REDACTED] per year based on the your letter stating that you have only built one glider in the 2010 -2014 time frame. Here is an excerpt from the regulations (40 CFR 1037.150(t)) stating these requirements:

§1037.150 Interim provisions.

(t) Glider kits and glider vehicles. (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Also here is a link to the applicable regulations:

https://www.ecfr.gov/cgi-bin/text-idx?SID=28cdad878cfdbelid650e74a17d9bbb9c&mc=true&node=se40.36.1037_1150&rgn=div8

Stephen,

Yes that is correct. We would prefer to continue letting our customers purchase the truck and us doing the assembly work if that is possible. If that is not possible then we will purchase the truck and build them and sell them to our customers.

Scott

Subject: Re: Request for Small Business Exemption as a Gilder Assembler

Stephen,

We have not sold any gliders. We are a public trucking service garage and all the gliders that we have assembled in the past our customers have bought from a dealer and had delivered to us and we have done all the work tearing apart the donor trucks and assembling the glider. So are you telling me that we don't qualify and can no longer build gliders? Our Kenworth salesman is telling us that we need this exemption to get our assembler number for the upcoming year. We got an assembler number last year but he says we need to get a new one every year.

Let me know,

Scott

On Wed, Oct 25, 2017 at 10:58 AM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Scott,

Have you sold any of the gliders that you have built? The letter that you sent indicates that you have not sold any gliders. To qualify for the small business exemption the regulations require that you've sold at least one glider. The regulation is 40 CFR 1037.150(t)(i). Here is the excerpt below:

§1037.150 Interim provisions.

(t)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Good morning Joe,

The first form - the Request for Small Business Exemption - needs to go to Stephen Healy at EPA. It should also show model year 2019 (calendar year 2018). Mr. Healy will sign it and return it, usually quickly. Then forward it to me. Once I get that I'll assign the assembler number. The Certification form is fine; I'll hold it until I get the Exemption.

Please let me know if you have any questions.

Subject: Re: Request for Small Business Exemption as a Gilder Assembler

Stephen,

We have not sold any gliders. We are a public trucking service garage and all the gliders that we have assembled in the past our customers have bought from a dealer and had delivered to us and we have done all the work tearing apart the donor trucks and assembling the glider. So are you telling me that we don't qualify and can no longer build gliders? Our Kenworth salesman is telling us that we need this exemption to get our assembler number for the upcoming year. We got an assembler number last year but he says we need to get a new one every year.

Let me know,

Scott

Subject: RE: Small Business Exemption for Glider Assembly

Joshua,

What year did you build that glider? Also did you sell a glider in 2014? The reason I ask this is the EPA small business glider builder exemption regulations list several requirements to qualify for the exemption. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and must have sold at least one to another company or person in 2014. Here is an excerpt from the regulation:

§1037.150 Interim provisions

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the Code of Federal Regulations section for the small business glider builder exemption (40 CFR 1037.150(t):

From: Healy, Stephen [mailto:healy.stephen@epa.gov]
Sent: Wednesday, April 11, 2018 10:56 AM
To: Joshua D. Skidmore <josh@skidmoretransportation.com>
Subject: RE: Small Business Exemption for Glider Assembly

Josh,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Scott,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).
- Should be on company letterhead if possible.
- Include company address and contact information.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

40 CFR 1037.635 – Glider kits and glider vehicles:

http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1635

13 CFR Part 121

Small business general provisions: describes how to determine affiliations and determine employee count:

Jerry,

At this point in time there have been no changes to the EPA small business glider builder regulations. You can submit a new letter for 2019 as I believe PACCAR will request you to do so. Most of the information will be the same as your previous submission. Please let me know if you have further questions.

Thank you,

Subject: Small Business Exemption 13 CFR 121.201

Hello Mr Healy,

We are currently reviewing paperwork for the year 2019, and would like your input on what may be required for continuation of our Small Business Exemption as we had filed for 2018.

I understand there could be some changes for Glider Kit Truck Assemblies but we have not heard for certain. Should we prepare a letter for 2019 similar to the attached, or are there updated regulations that we should be aware of?

Your feedback is much appreciated.

Regards,

Jerry Hoover

Scott,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).
- Should be on company letterhead if possible.
- Include company address and contact information.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you.

For your reference here are a number links to regulations that are applicable:

Subject: RE: Small Business Exemption for Glider Assembly

Joshua,

What year did you build [REDACTED]? Also did you sell a glider in 2014? The reason I ask this is the EPA small business glider builder exemption regulations list several requirements to qualify for the exemption. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and must have sold at least one to another company or person in 2014. Here is an excerpt from the regulation:

§1037.150 Interim provisions

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the Code of Federal Regulations section for the small business glider builder exemption (40 CFR 1037.150(t)):

Subject: RE: Small Business Exemption for Glider Assembly

Josh,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty

Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).

- A statement that your company is solely owned by (owner’s name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

Subject: RE: glider building

Jody,
The EPA regulations allow small businesses to purchase and build a number of gliders if they have built and sold a glider in 2010 through 2014. The regulation for gliders are found in 40 CFR 1037.150(t) and 40 CFR 1037.635. Below I have copied the section of regulation that covers who is eligible to purchase an exempt glider. Please contact me if you have further questions.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

(ii) In a given calendar year, you may produce up to 300 exempt vehicles under this section, or up to the highest annual production volume you identify in paragraph (t)(1) of this section, whichever is less.

Here is a link to the complete 40 CFR 1037.150 regulation section:

Subject: [SPAM] glider building

Good morning sir,

I work for a small fleet; [REDACTED] tractors and [REDACTED] trailers.
We have use glider kits in the past to update some of our older equipment.

When I tried to buy [REDACTED] for 2018 I was told that Petebilt could no longer sell them to me since we [REDACTED] in 2014.

It used to be that the kit was purchased thru the parts department; considered a replacement part for the vehicle being refurbished.

I can't locate where this is addressed on the epa website; can you help me locate this information.

I need to confirm what Petebilt is telling me (they can no longer sell to me); I have to have someone else build the tractor for me.

Having someone else do the work defeats the original purpose of the glider kit.

Thank you for the help,

Subject: 2019 glider assemblers

Hi Eddie,

Western Star glider kits are sold out for 2018, and Freightliner glider kits are not far behind. Any glider kits ordered now have to have the 2019 WRITTEN REQUEST AND CERTIFICATION FOR PURCHASE OF GLIDER KIT. The It is the same as the 2018 forms with just a few minor changes

I don't know how you will apply for the 2019 glider kit final assembler, you may want to check with the same people you got certified for 2018.

I am still working with Kevin Deem and Nick Kite at G C Mulch and they may fall into the 2019 year.

Please let me know what you find out on your end

Thank you,

Jim DiAndreth

Shane,

The information you provided looks good, but I have one change to request for both letters. The important part of both submissions for me is the letter on page 2. On that letter can you please add the applicable company name, address and contact information. The page 2 letter will be a standalone document for EPA and needs the correct company name and contact information listed.

Please let me know if you have any questions.

Subject: RE: Truck Centers, Inc. EPA Certification

Mr Yates,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions – this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

Subject: Truck Centers, Inc. EPA Certification

Mr. Stephen Healy,

I am Michael Yates, the President and Minority Owner of Truck Centers, Inc. Our majority owner and CEO, M. John Hopkins IV, is a veteran who is still Very active in our business. We are wanting to get an EPA Certification in order for us to build gliders to sell to the end user. We are a Franchised Dealer Heavy/Medium Duty Truck Dealer for Freightliner, Western Star, FUSO, and Ottawa Spotter Trucks. Our ownership is made up of 4 individuals:

- M. John Hopkins IV, CEO 78.78%
- Michael F. Yates, President 4.12%
- Katie Hopkins Snyder, Executive Vice President 8.72%
- Justin Hopkins, Vice President Sales 8.38%

We actually built and sold Glider Kits in the following calendar years:

- 2010
- 2011
- 2012
- 2013
- 2014
- 2015
- 2016

We feel our company meets the criteria for a small business under 40CFR 1037.150 NAICS Code 336120. As well as, the small business criteria specified Under 13 CFR 121.201.

Please advise me (us on what we need to do in order to become certified to build gliders under the new regulations.

Thank you for your help in assisting us in obtaining the certification.

Sincerely,

Michael F. Yates, President

Subject: RE: Glider Kit - Letter of Intent to Build - REVISED

Jason,

Has Freightliner of Savannah sold any gliders to outside parties? To qualify for the small business to glider exemption the regulations (see 40 CFR 86.1037.15(t)) require that that the small business had to have sold at least one glider to an outside party. There is no indication in the attached letter as to sales of gliders. Please see the excerpt from the regulation below.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.*

(1)(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a web link to the section of regulations, 40 CFR 1037.150(t):

https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=dd999ef3d73beaa8f97f8c57bf98efa1&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

RECEIVED

DATE: 7/17/18

Dear Mr. Healy,

This letter is to notify EPA that, *in the year 2019*, we intend to utilize the small business provisions as our company meets the small business criteria listed in 40 CFR 1037.150 c and the small business criteria specified in 13 CFR 121.201.

Ownership Structure of Freightliner of Savannah, Inc

- E. Jason Williams 52.5%
- Joseph M. Williams 47.5%

Ownership structure of affiliate Freightliner of Augusta, LLC

- E. Jason Williams 100.00%

The total number of employees of both companies for the past three years is as follows:

- 2015 86
- 2016 90
- 2017 89

Our company has built gliders for the years 2012 through 2014 as follows:

- 2012 [REDACTED]
- 2013 [REDACTED]
- 2014 [REDACTED]

Thank you.

Sincerely,

E. Jason Williams
President

Shane,

The information you provided looks good, but I have one change to request for both letters. The important part of both submissions for me is the letter on page 2. On that letter can you please add the applicable company name, address and contact information. The page 2 letter will be a standalone document for EPA and needs the correct company name and contact information listed.

Please let me know if you have any questions.

Thank you,

Subject: RE: Small Business Exemption Certification

Mike,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s).

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=&SID=7b7047abdd965bd6a1b219b7b036fad9&mc=true&n=pt40.36.1037&r=PART&ty=HTML#se40.36.1037_1150

40 CFR 1037.635 - Glider kits and glider vehicles:

Subject: EPA Small Business Glider Builder Allowance

Jason,

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person in 2014. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

40 CFR 1037.150 Interim Provisions - this covers the small business exclusion requirements (1037.150(c)) and the new interim glider requirements (1037.150(t)):

RE: Midway Truck Service, Inc
175 Legion Drive
Bethel, PA 19507

Mr. Healy,

This letter is regarding the EPA Small Business Exemption for the aforementioned Company. The Company currently qualifies as a small business based upon the guidelines stated in 13 CFR 121.201 for Heavy Duty Truck Manufacturing.

The Company currently has 16 employees. Employees for the 3 previous 3 years are as follows: 2015 – 18 employees, 2016 – 18 employees, and 2017 – 17 employees.

As required, disclosure of the Company's annual Glider Kit production volume for the calendar years 2010-2014 is as follows:

2010 [REDACTED]
2011 [REDACTED]
2012 [REDACTED]
2013 [REDACTED]
2014 [REDACTED]

The Company is currently structured as an S-Corp with four equal stockholders under Federal Identification Number 23-1583759. We represent Western Star Trucks.

The Company is requesting the Small Business Exemption for the 2019 model year.

If you have any questions or need additional information, please contact our office at 717.933.5656.

Sincerely,

James M Hess Pres Paul M Hess VP Larry W. Hess Sec Barry W Hess Trs

Subject: RE: Clay Cole

Cliff,
Did Clay Cole Trucking LLC sell any gliders in 2014? To qualify as an exempt small business the glider exemption regulations (found in 40 CFR 1037.150(t)) require that the business had to have sold at least one glider in 2014. I have included an excerpt from the regulation and highlighted the specific requirement.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Please let me know if you have any questions.

Subject: EPA Small Business Glider Builder Exemption

EPA regulations allow small businesses to build gliders using older (pre-2010) engines under certain conditions and restrictions. First, the company must qualify as a small business according to the applicable regulations and they must have built gliders in the time period of 2010 through 2014 and sold at least one to another company or person. You would be limited in the number of gliders you can build per year to the maximum number you built in any single year 2010 through 2014. The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees - this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations - assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built each year 2010 through 2014.
- Signed by the owner(s) or company official.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps. You can then show the EPA reviewed letter to the truck manufacturer as proof you have notified the EPA.

For your reference here are a number links to regulations that are applicable:

Mr. Healy,

Please let this letter serve as our official request to be granted an EPA Heavy Duty Green House Gas Small Business Provision.

Our company meets the small business criteria listed in 40 CFR 1037.150 © and the small business criteria specified in 13 CFR 121.201.

Our company Berger Holdings, LLC is a Michigan Company owned by Jesse C. P. Berger of Chesterfield Township, Michigan. We have two wholly owned subsidiaries; Eastern Michigan Kenworth and Central Michigan Kenworth that have been involved in selling and building gliders.

At the end of calendar year 2014 we had 111 total employees, 2015 we had 108 employees and calendar year 2016 we had 112 employees. In calendar year 2012 we built [REDACTED] in 2013 we built [REDACTED] and in 2014 we built [REDACTED]. Our current allocation for gliders from Kenworth is [REDACTED] per calendar year.

Sincerely Yours;

Jesse C. P. Berger
President

Subject: Small Business Exemption for 2018 Peterbilt Glider Kit Assembler

Stephen Healy,

I am needing to start the process of obtaining a Small Business Exemption for 2018, regarding assembling Peterbilt glider kits. I did obtain my Glider Vehicle Assembler code **9409214** in 2017.

Peterbilt Motors Company put out a TSB bulletin that directed us to contact our "EPA designated compliance officer" . They list you as a EPA contact, can you please assist me or direct me to the proper individual.

Doonan Truck is a family owned Peterbilt truck dealership located in Wichita, KS.

Respectfully,

Shane Palmer

Sorry for the misunderstanding,

Catherine

On Wed, Jun 27, 2018 at 1:46 PM, Healy, Stephen <healy.stephen@epa.gov> wrote:

Catherine,

To qualify for the EPA small business glider regulation provisions you must have sold at least one glider to another company in 2014. The small business glider regulations are in 40 CFR 1037.150(t). Here is an excerpt from the regulation that clearly states this:

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the complete regulation section if you would like to read it.

§1037.150 Interim provisions.

(t) *Glider kits and glider vehicles.* (1) Glider vehicles conforming to the requirements in this paragraph (t)(1) are exempt from the Phase 1 emission standards of this part 1037 prior to January 1, 2021. Engines in such vehicles (including vehicles produced after January 1, 2021) remain subject to the requirements of 40 CFR part 86 applicable for the engines' original model year, but not subject to the Phase 1 or Phase 2 standards of 40 CFR part 1036 unless they were originally manufactured in model year 2014 or later.

(i) You are eligible for this exemption if you are a small manufacturer and you sold one or more glider vehicles in 2014 under the provisions of §1037.150(c). You do not qualify if you only produced glider vehicles for your own use. You must notify us of your plans to use this exemption before you introduce exempt vehicles into U.S. commerce. In your notification, you must identify your annual U.S.-directed production volume (and sales, if different) of such vehicles for calendar years 2010 through 2014. Vehicles you produce before notifying us are not exempt under this section.

Here is a link to the complete regulation section if you would like to read it.

Subject: RE: Request to be a Small business
glider assembler

AA&S Corporation and A&R Transport, Inc. have their own tax ID#'s and are separate entities. AA&S Corporation built the trucks and leased them to A&R Transport, Inc. (I had that information wrong on the previous email I sent to you.) So- our Small business glider assembler License would actually need to be under AA&S Corporation 3310 W 2600 N Brigham City, UT 84302 not A&R Transport, Inc.

AA&S Corporation has been in business since 1980 and A&R Transport, Inc. has been in business since 1988. We have been building gliders for over 25 years. The main reason for building gliders for us is getting the Configuration we need for our operation-Axle spacing, Length, Fuel capacity, etc.

We built in [REDACTED] in 1993, [REDACTED]
[REDACTED] in 1997, 1 T800 KW in 2001, [REDACTED]
[REDACTED] in 2007, [REDACTED] 2009 model year
[REDACTED] in 2009, [REDACTED] 2011 model year
[REDACTED] in 2010-2011.

Each Glider was used as a leased vehicle by A&R Transport, Inc. for a while and then Sold.

[REDACTED] sold to Dairyway Tremonton, UT 2012

[REDACTED] sold to Roy's Truck Rowlett, TX 2013

[REDACTED] sold to Bouma Truck Sales, Choteau, MT
2014

█ sold to Bouma Truck Sales, Choteau, MT
2015

█ sold to Bouma Truck Sales, Choteau, MT
2016

█ sold to Bouma Truck Sales, Choteau, MT
2017

We are currently working on bids from Peterbilt
and Kenworth in Salt Lake City, UT.

Thanks

Sharon Lancaster

To: 'Shane Yule' [SYule@allstatepeterbiltgroup.com]
Subject: RE: Glider Kit Small Business Exemption Request

Shane,

The regulations (40 CFR 1037.150(c)) require a small business to notify EPA that they intend to utilize the small business provisions. We ask small businesses to send us a letter of notification annually that includes a number of bits of information justifying that they qualify for the small business allowances. A short letter that contains the following information is all that is needed:

- A statement that your company meets the small business criteria listed in 40 CFR 1037.150 (c) and the small business criteria specified in 13 CFR 121.201. (Assuming this is true.) Currently the size threshold for Heavy Duty Truck Manufacturers is 1500 employees – this is what is listed for NAICS Code 336120. The total number of employees includes that of the company and its affiliates (see 13 CFR 121 link below).
- A statement that your company is solely owned by (owner's name) and if there are multiple owners state each owner and the percentage ownership for each. Also describe any affiliations with other companies or state that there are no affiliations – assuming that is true.
- State the number of employees for each of the past 3 years.
- State the number of gliders that your company has built and sold each year 2010 through 2014.
- Signed by the owner(s).
- Should be on company letterhead if possible.
- Include company address and contact information.

You should scan the signed letter and send the PDF file to me. I will then review it, stamp it and return it to you. You can use the wording I used above (just substitute in the actual company name) if that helps.

For your reference here are a number links to regulations that are applicable:

To: 'Jerry Hoover' [jerryhoover1@gmail.com]
Subject: RE: 2018 Small Business Exemption

Mr Hoover,

Thank you for your small business exemption notification letter. There are two things I would like you to address:

- The production volume numbers for 2010 – 2014 should reflect the number of trucks assembled.
- Could you clarify the ownership structure. You state that the company is a single member LLC. I need to know if the owner is a single individual. We need to establish if there are any affiliations with other companies that could be applicable when determining the number of employees per 13 CFR 121.103 and 13 CFR 106. If there are affiliations then please attest to this fact.

If you could please make these changes to the letter and we can review the request ASAP.
