

Mexican Carbon Market Simulation Initiative

Mexico's Ministry of Environment and Natural Resources ([SEMARNAT](#)), MÉXICO2 ([Mexican Carbon Platform](#)) and the Mexican Stock Exchange ([BMV](#)) signed a collaboration agreement to work together towards the implementation of this initiative. As the result of the first stage were over 90 businesses voluntarily signed-up to participate. In September 2017, Environmental Defense Fund joined this initiative as a technical partner providing the simulation tool [CarbonSim](#). The second stage of this Initiative includes joint trainings in how to use the simulation tool and the develop carbon portfolio management strategies. A longer phase will include several multi-week online simulations to be implemented through 2017 and 2018.

For more information about the initiative, please [see this](#).
